Martin, E. Ashley Rooney, 2007 The Battle Road in Massachusetts is perhaps the most historic few miles in early American history At Lexington soon after Paul Revere and his cohorts roused the village from sleep a trigger was pulled on the Lexington Common and that shot was heard round the world The American War for Independence had begun Eight dead Americans were left on the green as the British marched on to Concord and the battle at the bridge These events and many others are retraced in this wonderful new book Using antique postcards the authors tell the Revolutionary War story and the rest of the history of the Lexington Concord region This was a center of intellectual and social activity in the 19th century and home to distinguished thinkers and writers including Thoreau Emerson Alcott and Hawthorne Over the years millions of people have visited the region commemorating their visit with postcard images of the places and events they saw Preserved in scrapbooks and memory boxes they now offer a visual history of special place New Pioneers Jeffrey Jacob, 2010-11 Practically everyone I know is nursing fantasies about escaping the life they re trapped in and creating one that makes more sense writes the editor of Utne Reader in a recent issue The people I most admire though are those who actually do it who break free and pursue a higher calling no matter how great the risk New Pioneers is about one such group of people the hundreds of thousands of urban North Americans who over the past three decades have given up their city or suburban homes for a few acres of land in the countryside Jeffrey Jacob s new pioneers are ordinary people who have tried to break away from the mainstream consumer culture and return to small town and rural America He traces the development of the movement and identifies seven different kinds of back to the lander the weekender country romantic purist country entrepreneur pensioner micro farmer and apprentice From over 1 300 survey responses interviews and in depth case studies at both the regional and national levels of representative back to the landers Jacob analyzes their values use of appropriate technology family division of labor on their acreages and predisposition toward environmental activism Jacob finds that back to the landers for the most part are not completely independent of the mainstream economy and consequently their lives do reflect the contradictions between the available conveniences of a high technology culture and the movement s goals of self reliant labor He analyzes their ambivalent attitudes toward technology hoes and shovels versus mini hydroelectric systems wood stoves versus microwave ovens and so on After examining the experiences of the back to the country people who live on the margins of a postindustrial society Jacob creates a clearer appreciation of the preconditions necessary to translate the idea of sustainable living into concrete action on a society wide scale While New Pioneers describes an important social movement it also shows how far a group of highly motivated individuals and families can go by themselves in breaking away

from the prevailing consumer culture The dilemmas frustrations adaptations and triumphs of these neo homesteaders offer valuable insights to anyone contemplating a move back to the land *Poplar Forest* Travis C. McDonald,2023-05-08 Poplar Forest is one of two personal residences that Thomas Jefferson designed for himself the other being Monticello Jefferson s wife Martha Wayles Skelton Jefferson inherited the land originally a 6 861 acre parcel at her father s death in 1773 but Jefferson did not begin construction on the house until 1806 and at his death in 1826 he was still working on his little getaway Despite its audacious design it was the first documented octagonal residence in America and the fact that it is one of the very few extant Jeffersonian structures Poplar Forest is not nearly so well known today as its sibling seventy miles to the northeast Undoubtedly this is due in large part to its more remote location in Bedford County Additionally the house remained in private hands until 1984 Travis McDonald situates the site in its rightful position as a historically important Virginia house and he documents its story as central to Jefferson s life and approach to architecture including details of the enslaved community at his western retreat This new informed account will appeal to architectural historians and visitors to the villa retreat as well as to those interested in Jefferson s work and legacy *Architecture and Suburbia* John Archer,2005 Traces the evolution of the modern American dream house from seventeenth century England to the present Best Life ,2006-07 Best Life magazine empowers men to continually improve their physical emotional and financial well being to better enjoy the most rewarding years of their life Hearings, Reports and Prints of the Senate Committee on Banking and Currency United States.
