Return To Sodom And Gomorrah Bible Stories From Archaeologists:

Return to Sodom and Gomorrah Charles R. Pellegrino,1994 Traces the archaeological sites of the Old Testament from the Nile to the Jordan and Tigris Euphrates rivers **The Stones Cry Out** Randall Price,1997 This survey of archaeological discoveries in Bible lands includes testimonies and interviews from leading archaeologists and exciting pictures featuring the latest finds made in the lands of the Bible Secrets of the Dead Sea Scrolls Randall Price,1996 Discover new technology that helps translators with previously unreadable Scroll fragments supposedly secret scrolls in hiding and the furious debate about who rightfully owns the Scrolls Includes never before published photographs *The Faultline of Consciousness* David Maines,2017-09-08 In this compendium of related and cross referential essays David R Maines draws from pragmatist symbolic interactionist assumptions to formulate a consistent new view of the entire field of sociology Suitable for courses in social theory qualitative methods social psychology and narrative inquiry this volume will change the way the general public looks at interpretive sociology This book is organized as an expression of the centrality of interactionism to general sociology Each chapter is designed to articulate this view of the field Symbolic interactionism the way Maines has come to understand and use it is essentially the concerted application of pragmatist principles of philosophy to social inquiry There are four basic elements to this characterization First people transform themselves people are self aware beings who reflexively form their conduct and thus are capable of adjusting their lines of action and creating new ones Second people transform their social worlds human action takes place in contexts of situations and social worlds People can modify the social matrices in which they act and thus people are agents of change Third people engage in social dialogue communication is generic and is at the heart of both stability and change A fourth element is that people respond to and deal with their transformations Humans construct situations and societies they establish social structures and cultures These are the consequences of human action and once formed they reflexively function to direct and channel conduct Maines argues that when people do things together they can create enduring group formations such as divisions of labor rules for inheritance wage labor relations or ideologies These are instances of group characteristics that influence human conduct and indeed are not reducible to the traits of individuals making up the group or society *Sodom's Sin* Ed Noort,Tigchelaar,2021-11-29 This volume is devoted to the receptions of and reflections on the story of Sodom and Gomorrah as told in Genesis 18 and 19 Two articles discuss intertextual reactions to the Sodom narrative within the Hebrew Bible Five contributions examine readings and rewritings of the Sodom narrative in early Jewish Christian and Islamic writings Jubilees the Dead Sea Scrolls the New Testament Revelation 11 Targumim and early Koran commentaries Two articles focus on separate themes the punishment of the Dead Sea and the prohibition on looking back Finally two articles that focus on Peter Damian and Proust's Sodome et Gomorrhe I describe the later reception of the sin of Sodom as homosexuality A bibliography of recent works completes the volume *Uses and Abuses of Moses* Theodore Ziolkowski,2016-03-15 In *Uses and Abuses of Moses* Theodore Ziolkowski surveys

the major literary treatments of the biblical figure of Moses since the Enlightenment Beginning with the influential treatments by Schiller and Goethe for whom Moses was respectively a member of a mystery cult and a violent murderer Ziolkowski examines an impressive array of dramas poems operas novels and films to show the many ways in which the charismatic figure of Moses has been exploited the uses and abuses of the title to serve a variety of ideological and cultural purposes Ziolkowski s wide ranging and in depth study compares and analyzes the attempts by nearly one hundred writers to fill in the gaps in the biblical account of Moses life and to explain his motivation as a leader lawgiver and prophet As Ziolkowski richly demonstrates Moses image has been affected by historical factors such as the Egyptomania of the 1820s the revolutionary movements of the mid nineteenth century the early move toward black liberation in the United States and critical biblical scholarship of the late nineteenth century before in the twentieth century being appropriated by Marxists Socialists Nazis and Freudians The majority of the works studied are by Austro German and Anglo American writers but Ziolkowski also includes significant examples of works from Hungary Sweden Norway the Ukraine Denmark the Netherlands Italy and France The figure of Moses becomes an animate seismograph in Ziolkowski s words through whose literary reception we can trace many of the shifts in the cultural landscape of the past two centuries How Now Shall We Live?
