Heidegger's Platonism Mark A. Ralkowski, 2009-10-22 Heidegger's Platonism challenges Heidegger's 1940 interpretation of Plato as the philosopher who initiated the West's ontological decline into contemporary nihilism Mark A Ralkowski argues that in his

earlier lecture course On the Essence of Truth in which he appropriates Plato in a positive light Heidegger discovered the two most important concepts of his later thought namely the difference between the Being of beings and Being as such and the belonging together of Being and man in what he eventually calls Ereignis the event of appropriation Ralkowski shows that far from being the grand villain of metaphysics Plato was in fact the gateway to Heidegger's later period Because Heidegger discovers the seeds of his later thought in his positive appropriation of Plato this book argues that Heidegger's later thought is a return to and phenomenological transformation of Platonism which is ironic not least because Heidegger thought of himself as the West's first truly post Platonic philosopher Stars & Planets Ruth M.
