

INTERPRETING THE LIFE LINE

Each person's life line will look different and unique — the position of the life line can tell the story of your health and energy throughout your lifetime.

SHALLOW CURVED LIFE LINE

A shallow curve indicates a tendency towards low vitality and energy levels and, consequently, a greater susceptibility to illness and disease.

CURVE UNDER THE MOUNT OF VENUS

A curve in this region of the palm indicates a placid and stable personality; this is a sign of someone who is likely to deal well with a crisis and remain calm.

CURVE TOWARDS MOUNT OF MOON

This signifies an excitable and instinctive personality. It suggests someone who has a tendency to be impetuous: acting first and thinking later.

ISLANDS IN THE LIFE LINE

Islands look like little bubbles in the life line and indicate periods of ill health, generally lasting as long as the period of time that the island covers.

CHAINED LIFE LINE

This represents a longer period of ill health, involving both physical and mental exhaustion. Found early in the life line it can indicate a childhood chest infection.

BROKEN LIFE LINE

This indicates a sudden illness or accident. If the lines overlap, this indicates that the situation will be far less severe than it could have been.

EFFORT LINES FROM LIFE LINE

Effort lines rising up from the life line are revealing, depending on the mount they rise towards. A line rising towards the Mount of Jupiter indicates success in life.

INFLUENCE LINES

Lines rising up from the Mount of Venus indicate negative influences on health or happiness. If the lines break the life line it indicates health problems at this age.

PARALLEL LINE OF MARS

The Mars line (right) running inside and parallel to the life line, implies excellent health for the duration of the time it runs alongside the life line.
