Vangshardt,2023-11-20 Rasmus Vangshardt offers an original interpretation of one of the most famous images of literary history the theatrum mundi By applying methods of comparative literature hispanic studies and theology he reconsiders the world theatre s historical peak in early modern Europe in general and the Spanish Golden Age in particular The author presents a new close reading of Pedro Calder n s *El gran teatro del mundo* c 1633 36 and outlines the historical and systematic framework for a theatrum mundi of celebration This concept entails using art to justify human existence in the face of changing conceptions of the cosmos an early modern aesthetic theodicy and a justification of the world in that liminal space between drama and ritual By discussing historiographical theories of early modern Europe especially those of Hans Blumenberg and Bruno Latour and through conversations with Shakespearean drama and Spanish Golden Age classics Vangshardt also argues that the theatrum mundi of celebration questions traditional assumptions of great divides between the Middle Ages and Early Modernity and challenges theories of a European wide early modern sense of crisis **Don**

Quixote's Impossible Quest for the Absolute in Literature William Franke,2024-07-31 This book offers a reading particularly of Part II of *Don Quixote* a reading that is embedded in a philosophical reflection on the revelation of religious truth in and through literature Part II of *Don Quixote* is the far richer part for its meta literary reflection on the novel itself as a genre and on life as such seen through the lens of self reflection The author has treated the phenomenon of modern self reflexivity as originally theological in nature in previous publications notably *Dante s Paradiso* and *The Theological Origins of Modern Thought Toward a Speculative Philosophy of Self Reflection* Routledge 2021 The present endeavor expands this

overall intellectual project extending it into detailed consideration of what is recognizably another nodal great work inaugurating unprecedented forms of self reflection in the early modern period Reading the founding texts of literary and cultural tradition in this negative theological key proves crucial to allowing them to release the full force of their religious vision in the present age despite its sometimes obstinate secularity This reading absorbs and reconciles the religious and secular readings of Miguel de Unamuno and Jos Ortega y Gasset two of Spain s outstanding philosophical luminaries Both thinkers based their entire philosophies and their analyses of the Spanish national character and destiny on their interpretations of the Quixote Negative theology deploys critical reason that critiques the limits of reason itself and opens toward an unfathomable un ground of All Such speculative interpretation performs a synthesis of the secularizing and sacralizing tendencies that are both sublimely operative in the text of the Quixote It thereby enables the work to emerge in the fully parodic and paradoxical vitality that other interpretations governed by one paradigm or the other access only partially Rather than falling into one camp or the other the proposed approach combines and resources both heritages sacred and secular in their deepest synergisms Spanish baroque mysticism and contemporary post secular thought are made to converge in highlighting the blessed even sacred donation that literature like Don Quixote preserves and transmits as our most precious and saving cultural heritage
