Revelation For Today Images Of Hope:

Revelation for Today Richard L. Jeske, 1983-01-01 *Woman, Mother, and Bride* Felise Tavo, 2007 Over the past fifty years studies pertaining to the reality of the church in the Apocalypse have for the most part tended to be either selective or sketchy in their treatment of the relevant material of the book Yet in all fairness to the seer of Patmos his portrayal of the church as a reality decidedly complex and at once profound can only be attained in a thoroughgoing study of the principal ecclesial narratives of his work so as to allow for that indispensable synoptic overview of such intentionally correlated material *Woman Mother and Bride* is such a study It re examines the relevant imagery of the Apocalypse but from the perspective of the seer's ecclesial thought world and on the basis of his overriding pastoral concerns for the seven churches without which his work will continue to puzzle and trouble at every page The ensuing outlook on the church is panoramic in its scope yet compelling in its appeal which further goes to confirm the Apocalypse as one of the most significant theological achievements of early Christianity *The Seven Cities of the Apocalypse and Roman Culture* Roland H. Worth, 2019-05-07 To understand the immediate cultural and societal background of the cities to which John wrote in Revelation 1 and 2 we must first understand the broader background of Roman civilization and its impact upon Asian province writes Roland H. Worth in the introduction to this fascinating information packed work It is an in depth study of the history culture society economics and environment of early Christians living in Roman Asia Drawing on a multitude of resources from diverse disciplines Worth surveys Roman life and attitudes in general and demonstrates how Roman power developed and was exercised in Asia He describes life in Roman Asia what it was like to live in that province how the imperial cult grew and prospered there as well as the nature of official governmental persecution in the first century A second book *The Seven Cities of the Apocalypse and Greco-Asian Culture* will fill in the details of the local background of the Christians for whom the mini epistles in the book of Revelation were written *The Seven Cities of the Apocalypse and Greco-Asian Culture* Roland H. Worth, 2019-05-07 The companion to *The Seven Cities of the Apocalypse and Roman Culture* this study explores the social world in which early Christians functioned in Asia providing a comprehensive picture of life in this eastern province of the Roman Empire and focusing on how the local environment affects the interpretation of the book of Revelation The history population local culture economies and cults of each city are examined in detail Including data from hundreds of sources this volume should prove useful to students of both the Bible and Roman history as it bridges the gap between the two specialties and provides many details that enable the reader to imagine what life would really have been like in those ancient cities As such this study provides a valuable supplement to the broader question of Rome's general impact upon the region traced in the *Roman Culture* volume Although there are many works on the subject this is the only place where all the information is pulled together It is a useful resource for Scripture scholars nonprofessionals with an interest in Bible study professors and students of Scripture and historians specializing in the first century CE **Hope Against Hope** Leonard

Bowman,2001-04-29 A conflict of hope is causing tensions in Church and society Hope Against Hope describes two common forms of hope Apocalyptic hope stresses conflict and looks forward to Doomsday Cosmic hope stresses reconciliation and looks forward to universal harmony Reflecting on this conflict Hope Against Hope draws on the Bible and on everyday wisdom to highlight the strengths and deficiencies of both common forms of hope Then it leads toward a good hope that balances the good in both and goes beyond them to their root This way focuses on the great surprise of the New Testament the resurrection Then it finds the power of the resurrection at work surprisingly in the simplest human relationships From that simple insight comes a promising direction for the future and a clear moral compass

A Physicist Examines Hope in the Resurrection John F. Wilson,2016-12-22 John Polkinghorne ordained member of the Royal Society past President of Queen's College Cambridge Knight Commander of the Order of the British Empire 2002 Templeton Prize winner theoretical physicist and theologian writes in breathless style to unfold core Christian doctrine in dialogue with science His work deftly addresses how one would interpret and commend Christian faith in the contemporary world as he elucidates the key topics in the dialogue of religion with science Polkinghorne's work addresses the hope Christians have present and future in the faithfulness of a loving God who stands alongside them today and for all eternity Eschatological hope enables and empowers Christian life and emerges in God's resurrection of Jesus from the horrific crucifixion Polkinghorne ably supports his thesis with a strong argument for the resurrection built on the kenotic acts of God His thesis sees Christian eschatology as the advent of hope the heart of faith In Christian eschatology as argued by Polkinghorne and supported in the work of Jurgen Moltmann and Nicholas T Wright Christ's presence is not some far off event but present reality

Anti-Roman Cryptograms in the New Testament Norman A. Beck,2010 The first basic thesis of Anti Roman Cryptograms in the New Testament Hidden Transcripts of Hope and Liberation is that the Jesus of history and his earliest and closest followers during his lifetime and during the decades after he had been crucified by the Romans had not only a deep longing for eternal life with God beyond the limits of this world but also a strong desire for liberation from Roman political economic and social oppression The second basic thesis of Anti Roman Cryptograms in the New Testament is that within the Christian Scriptures there are more hidden transcripts coded messages anti Roman cryptograms of hope and liberation for freedom now within this life than we have realized throughout most of the history of interpretation Hidden transcripts of hope and liberation are coded so that oppressed people are able to communicate to their fellow oppressed people in ways in which their message and their intent are shielded from the perceptions of their oppressors These messages by the Jesus of history and by the writers of New Testament and related literature use the language of faith of salvation of Deity and of adversaries of Deity giving words that are commonly used by the oppressed people new and double meanings Within interaction with other scholars who are publishing studies of hidden transcripts this book is an analysis of hidden transcripts within each of the New Testament documents The book is designed to be used in New Testament Studies courses at undergraduate and or graduate levels by

study groups and by all persons who desire a more adequate understanding of the Jesus of history his closest followers and their oral and written communications during the first three centuries C E *Horizons* ,1982 **Eco-Reformation** Lisa E. Dahill,Jim B. Martin-Schramm,2016-10-31 In 2017 Christians around the world will mark the five hundredth anniversary of the Reformation In the midst of many appeals for reformation today a growing number of theologians scholars and activists around the world believe Reformation celebrations in 2017 and beyond need to focus now on the urgent need for an Eco Reformation The rise of industrial fossil fuel driven capitalism and the explosive growth in human population endanger the fundamental planetary life support systems on which life as we know it has evolved The collective impact of human production consumption and reproduction is undermining the ecological systems that support human life on Earth If human beings do not reform their relationship with God s creation unspeakable suffering will befall many especially the weakest and most vulnerable among all species The conviction at the heart of this collection of essays is that a gospel call for ecological justice belongs at the heart of the five hundredth anniversary observance of the Reformation in 2017 and as a if not the central dimension of Christian conversion faith and practice into the foreseeable future Like Luther s Ninety Five Theses this volume brings together critical biblical pastoral theological historical and ethical perspectives that constructively advance the vision of a socially and ecologically flourishing Earth Living with Hope J. C. Polkinghorne,2003-01-01 In these refreshingly unconventional meditations scientist John Polkinghorne connects the perspectives of science and religion in honest and thoughtful reflections for Advent Christmas and Epiphany Giving new meaning to the penitence of Advent and the hope of the Christian faith he considers God s ultimate purposes along with scientific knowledge of the fate of the universe Complete with Scriptural references and prayers Living With Hope encourages Christians to think about the beginning and end of the world and to come to discover what it means to truly affirm God s purpose in creation
