Reverberations Interviews With The World:

Reverberations Robert M. Jacobson, 1974 *The Imaginary Museum of Musical Works : An Essay in the Philosophy of Music* Lydia Goehr, 1992-03-26 What is the difference between a performance of Beethoven's Fifth Symphony and the symphony itself? What does it mean for musicians to be faithful to the works they perform? To answer such questions, Lydia Goehr combines philosophical and historical methods of enquiry. Finding Anglo-American philosophy inadequate for the task, she shows that a historical perspective is indispensable to a full understanding of musical ontology. Goehr examines the concepts and assumptions behind the practice of classical music in the nineteenth century and demonstrates how different they were from those of previous centuries. She rejects the finding that the concept of a musical work emerged in the sixteenth century, placing its emergence instead around 1800. She describes how the concept of a work then came to define the norms, expectations, and behaviour that we now associate with classical music. Out of the historical thesis, Goehr draws philosophical conclusions about the normative functions of concepts and ideals. She also addresses current debates among conductors, early music performers, and avant-gardists.

Serving Genius Thomas D. Saler, 2024-03-18 *Serving Genius* tells the life story of Carlo Maria Giulini, one of the most renowned and beloved conductors of the twentieth century. Detailing Giulini's extraordinary professional career, Thomas D. Saler also chronicles Giulini's personal life, including his musical awakening while growing up amid the spectacular beauty of the Dolomite mountains, his years as a student in Rome's Academy of St. Cecilia, his conscription into the Italian army during World War II, his nine months in hiding for his anti-fascist and pacifist beliefs, and his selfless devotion to his wife, Marcella. A humble master who shunned the limelight, Giulini took a deeply emotional and subjective approach to making music. Saler provides a uniquely detailed analysis of Giulini's nuanced musicianship and the way he conveyed that musicianship to the orchestra through physical gestures. Meditating on the very art of conducting at which Giulini excelled, Saler discusses each of the conductor's major musical appointments, including stints with the Chicago Symphony Orchestra, Philharmonia Orchestra, Vienna Symphony, and Los Angeles Philharmonic. The book also addresses his repertoire of choice, leadership style, and moral framework. Drawing on extensive interviews with Giulini's family, music critics, arts administrators, orchestra members, and collaborating soloists, *Serving Genius* draws out the personal amid the professional life of this giant among twentieth-century conductors.

Music and Ideology in Cold War Europe Mark Carroll, 2006-11-02 This book places the radicalization of art music in early post-war France in its broader socio-cultural and political context. It pursues two general and intersecting lines of inquiry. The first details the stances towards musical conservatism and innovation adopted by cultural strategists representing Western and Soviet ideological interests at the onset of the Cold War. The second, which

draws upon the commentaries of Theodor Adorno and Jean Paul Sartre recognizes that the Cold War generated a heightened political awareness amongst French musicians at the very time when the social relevance of avant garde music had become the subject of widespread debate The study considers the implications of the performance at L Oeuvre du XXe si cle an international arts festival staged in Paris in 1952 with the intention of discrediting socialist realism by means of two opposing musical types neo classicism represented by Stravinsky s Symphony in C and serialism Boulez s Structures 1a
