Revival And Reaction The Right In Contemporary America:

America in the Modern World Stephen Burman,1991-11-15 The past few years have witnessed changes which will be of lasting significance in international affairs The revolutions in Eastern Europe and the Soviet Union for example are fundamental not only for those societies but also in their implications for the rest of the world They signal the passing of the international order that has governed the post war era Since the United States was the principal architect of that order its passing will have fundamental implications for America s role in the modern world It has been suggested that this transformation will reduce the US to the status of an ordinary country indeed that the signs of decline are already everywhere apparent In this book the author argues to the contrary that the emerging new world order offers great opportunities to the US to maintain its status as the leading power in the world

Fundamentalism and Evangelicals Harriet A. Harris,1998-06-11 Fundamentalism is a label used often pejoratively of religious conservatism Evangelicals are growing in number and power around the world and are frequently regarded as fundamentalist This volume examines fundamentalism as a mentality which has greatly

affected evangelicalism but which some evangelicals now wish to leave behind Neo-Liberal Ideology Rachel S Turner, 2011-06-07 An original account of neo liberalism s intellectual foundations development and conceptual configuration as an ideology Newly available in paperback *Fighting the Last War* Jeffrey M. Bale, Tamir Bar-On, 2024-01-24 The authors argue that the potential threat of a resurgence of fascism has been consistently exaggerated from 1945 until present day that the ongoing lack of conceptual and definitional clarity with respect to terms like fascism the radical right the alt right white supremacism populism racism etc has enabled ill informed or dishonest commentators to distort their meaning and abusively misapply those labels so as to delegitimize their political opponents and that the political and economic elites in charge of contemporary Western societies are now deliberately exaggerating and exploiting the threat posed by the domestic radical right in order to facilitate vilifying harassing de platforming censoring canceling and repressing disgruntled citizens no matter where they may lie along the political spectrum who openly criticize and vigorously oppose their agendas The authors also advocate the use of well established scholarly methods for carrying out research on the right and provide precise definitions of various terms in order to facilitate the development of more accurate categorizations **The New York Intellectuals, Thirtieth Anniversary Edition** Alan M. Wald, 2017-10-10 For a generation Alan M Wald s *The New York Intellectuals* has stood as the authoritative account of an often misunderstood chapter in the history of a celebrated tradition among literary radicals in the United States His passionate investigation of over half a century of dissident Marxist thought Jewish internationalism fervent political activism and the complex art of the literary imagination is enriched by more than one hundred personal interviews unparalleled primary research and critical interpretations of novels and short stories depicting the inner lives of committed writers and thinkers Wald s commanding biographical portraits of rebel outsiders who mostly became insiders retains its resonance today and includes commentary on Max Eastman Elliot Cohen Lionel Trilling Sidney Hook Tess Slesinger Philip Rahv Mary McCarthy James T Farrell Irving Kristol Irving Howe Hannah Arendt and more With a new preface by the author that tracks the rebounding influence of these intellectuals in the era of Occupy and Bernie Sanders this anniversary edition shows that the trajectory and ideological ordeals of the New York intellectual Left still matters today **Ideologies and Political Theory** Michael Freeden, 1996-10-24 Ideologies play a crucial role in the way the political world is shaped Using the political experience of Britain France Germany and the USA this work examines political ideologies such as liberalism conservatism feminism and green politics
