Reviving Main Street:

Reviving Main Street Jacques Dalibard, Heritage Canada, 1985 **The 1857 Hamilton, Ontario Revival** Sandra L. King, 2015-07-07 Hundreds of people were converted leading to significant church growth in an 1857 revival led by Phoebe Palmer in the city of Hamilton Ontario Canada that contributed to the beginning of the Second Great Awakening This book explores the 1857 setting in the world and in Hamilton including the key churches and people involved in the revival What happened was not typical for revival meetings led by the Palmers as this account shows The book continues with a summary of the impact of the Hamilton revival around the globe linking it to other revivals and the Second Great Awakening as a whole The account ends with what subsequently unfolded in the Hamilton area and the churches involved Many of the primary sources are in the Appendix and the book includes numerous pictures and maps Scholars ministers and lay people alike will appreciate this exploration of a chapter in Canada's spiritual history **Main Street to Mainframes** Harvey K. Flad, Clyde C. Griffen, 2010-03-25 The history of growth decline and revitalization in Poughkeepsie New York parallels that of many other small northeastern cities Main Street to Mainframes tells the story of Poughkeepsie's transformation over the past three centuries from an agricultural market town to a small city with a diversified economy centered on Main Street to an urban region dependent on the success of one corporation and how this transformation has affected the lives and landscape of its inhabitants As it adjusted to major changes in agriculture transportation and industry Poughkeepsie was also shaped by the forces and tensions of immigration and race The voices of immigrant and migrant newcomers from the Germans Irish and African Americans of the nineteenth century to the Italians Poles and Latinos of the twentieth enliven the narrative and offer personal perspectives on the social and demographic shifts that have taken place over the years The book also places Poughkeepsie in the context of the mid Hudson Valley's other cities Kingston Newburgh and Hudson as they competed from the colonial period onward Finally the book examines recent revitalization efforts based on tourism culture and the arts More than just a local history Main Street to Mainframes addresses important issues in urban and regional planning community development and sociology Like a palimpsest Poughkeepsie shows how past landscapes live on in the present and how over time popular perceptions both shape and reflect urban and rural realities **Community-Built** Katherine Melcher, Barry Stiefel, Kristin Faurest, 2016-11-25 Throughout history and around the world community members have come together to build places be it settlers constructing log cabins in nineteenth century Canada an artist group creating a waterfront gathering place along the Danube in Budapest or residents helping revive small town main streets in the United States What all these projects have in common is that they involve local volunteers in the construction of public and community places they are community built Although much attention has been given to specific community built movements such as public murals and community gardens little has been given to defining community built as a whole This volume provides a preliminary description of community built practices with examples from the disciplines of urban design

historic preservation and community art Taken as a whole these community built projects illustrate how the process of local involvement in adapting building and preserving a built environment can strengthen communities and create places that are intimately tied to local needs culture and community The lessons learned from this volume can provide community planners grassroots facilitators and participants with an understanding of what can lead to successful community built art construction preservation and placemaking
