Revolting Librarians:

Revolting Librarians Redux Katia Roberto, Jessamyn West, 2003-01-01 Revolting librarians aren't defined by what they are they are defined by what they do In fact it's not even what they do but how they do it Katia Roberto and Jessamyn West in the Preface This compilation of witty insightful and readable writings on the various aspects of alternative librarianship edited by two outspoken library professionals is a sequel to Revolting Librarians which was published in 1972 The contributors including Alison Bechdel Sanford Berman and Utne Reader librarian Chris Dodge cover topics that range from library education and librarianship as a profession to the more political and spiritual aspects of librarianship The contributions include critiques of library and information science programs firsthand accounts of work experiences and original fiction poetry and art Ten of the original librarians who wrote essays for Revolting Librarians back in 1972 reflect upon what they wrote thirty years ago and the turns that their lives and careers have taken since *Revolting Librarians* Elizabeth

Katz, 1972 **Revolting Librarians** Celeste West, Elizabeth Katz, 1972 **She was a Booklegger** Toni Samek, Moyra Lang, Keller R. Roberto, 2010 A compilation of reflections and tales from friends and other admirers who were influenced and inspired by Celeste West a feminist librarian lesbian publisher and activist Provided by publisher **Libraries to the People** Robert S. Freeman, David M. Hovde, 2003-02-10 With today's technology anyone anywhere can access public library materials without leaving home or office one simply logs on to the library's website to be exposed to a wealth of information But one of the concerns that arises is the lack of access for groups isolated by socioeconomic geographical or cultural factors This problem is not a new one For almost two centuries public libraries and other organizations have been trying to bring library services to isolated populations This book is a collection of fourteen essays examining the contributions of librarians educators and organizations in the United States who have endeavored to bring library services to groups that previously did not have access There are three sections Benevolent and Commercial Organizations Government Supported Programs and Innovative Outreach Services The essays discuss reading materials for two centuries of rural Louisianians shipboard libraries for the American Navy and merchant Marine library outreach to prisoners the Indiana Township Library Program tribal libraries in the lower forty eight states open air libraries electronic outreach and the use of radio in promoting the Municipal Reference Library of the City of New York to name just a few of the essay topics **Women in Print** James P. Danky, Wayne A. Wiegand, 2006-04-01 Women readers editors librarians authors journalists booksellers and others are the subjects in this stimulating new collection on modern print culture The essays feature women like Marie Mason Potts editor of *Smoke Signals* a mid twentieth century periodical of the Federated Indians of California Lois Waisbrooker publisher of books and journals on female sexuality and women's rights in the decades after the Civil War and Elizabeth Jordan author of two novels and editor of *Harper's Bazaar* from 1900 to 1913 The volume presents a complex and engaging picture of print culture and of the forces that affected women's lives in the nineteenth and twentieth centuries Published in collaboration among the

University of Wisconsin Press the Center for the History of Print Culture in Modern America a joint program of the University of Wisconsin Madison and the Wisconsin Historical Society and the University of Wisconsin Madison General Library System Office of Scholarly Communication **The Portable MLIS** Ken Haycock, Mary-Jo Romaniuk, 2017-12-07 In this update of the ideal introduction to the library profession the core competencies of professional librarians are presented in 14 essays supplemented with foundational principles and context The original edition of this book gained popularity as a required work for LIS because it uniquely provided a broad accessible overview of the core curricular areas and foundations for the library profession What distinguishes the book as an introduction to the work of professional librarians is that it is not just about information in context or about libraries and their mission Importantly it also covers the required competencies of professional librarians laying a firm foundation for future courses In this second edition each chapter has been revised and updated to take into account current thinking and references As with the first edition the book is organized around the foundations of the profession and key functional areas Questions such as how to think like a librarian and how to facilitate community development are specifically and explicitly addressed In compiling the book the editors sought out the leading thinkers educators and practitioners in each core area as chapter authors Each of the contributors provides an introduction to the knowledge skills and abilities associated with their respective area of expertise discusses current and emerging applications and explores trends and issues Queer Literacies Mark McBeth, 2019-12-02 In a documentarian investigation of the major LGBTQ archives in the United States *Queer Literacies: Discourses and Discontents* identifies the homophobic discourses that prevailed in the twentieth century by those discursive forces that also sponsored the literacy acquisition of the nation Mark McBeth tracks down the evidence of how these sponsors of literacy families teachers librarians doctors scientists and government agents instituted heteronormative platforms upon which public discourses were constructed After pinpointing and analyzing how this disparaging rhetoric emerged McBeth examines how certain LGBTQ advocates took counter literacy measures to upend and replace those discourses with more Queer affirming articulations Having lived contemporaneously while these events occurred McBeth incorporates narratives of his own lived experience of how these discourses impacted his own reading writing and researching capabilities In this auto archival research investigation McBeth argues that throughout the twentieth century Queer literates revised dominant and oppressive discourses as a means of survival and world making in their own words Scholars of rhetoric gender studies LGBTQ studies literary studies and communication studies will find this book particularly useful Not Your Ordinary Librarian Ashanti White, 2012-03-19 When you picture a librarian what do you imagine An old white woman with glasses and a prudish disposition That is the image that many people conjure up when asked to picture a librarian with 82 per cent of the professional force being female and the average age of a librarian at 45 coupled with popular stereotypical images it is difficult to dispute the perceptions But there is more to librarians than meets the eye This book will explore the origin of the image and popular media images of

the librarian in addition to the effects of the stereotype and the challenges to the perception of librarians today Provides contemporary examples from popular culture Chapters are supported by quotes images and personal reflections Presents a study which offers authenticity The Generation X Librarian Martin K. Wallace, Rebecca Tolley-Stokes, Erik Sean Estep, 2014-01-10 Generation X includes individuals born roughly between 1961 and 1981 This generation has faced major advances in technology environmental degradation and widening economic injustice all of which affect libraries and librarians This collection of critical essays highlights the special challenges that face Generation X librarians Topics covered include management and leadership rapidly changing technology social attitudes and stereotypes within popular culture and how Generation X librarians have responded to or developed in response to those themes This work fills many of the gaps present in the professional literature on librarianship and our younger generations
