Social Justice and Library Work Stephen Bales, 2017-10-18 Although they may not have always been explicitly stated library work has always had normative goals Until recently such goals have largely been abstract they are things like knowledge creation education forwarding science preserving history supporting democracy and safeguarding civilization The modern spirit of social and cultural critique however has focused our attention on the concrete material relationships that determine human potentiality and opportunity and library workers are increasingly seeing the institution of the library as well as library work as embedded in a web of relations that extends beyond the library's traditional sphere of influence In light of this critical consciousness more and more library and information science professionals are coming to see themselves as change agents and front line advocates of social justice issues This book will serve as a guide for those library workers and related information professionals that disregard traditional ideas of library neutrality and static idealized conceptions of Western culture The book will work as an entry point for those just forming a consciousness oriented towards social justice work and will be also be of value to more experienced transformative library workers as an up to date supplement to their praxis Justifies the use of a variety of theoretical and

practical resources for effecting positive change Explores the role of the librarian as change agents **Radical Cataloging** K.R. Roberto, 2015-03-07 This collection of critical and scholarly essays addresses the state of cataloging in the world of librarianship The contributors including Sanford Berman Thomas Mann and numerous front line library workers address topics ranging from criticisms of the state of the profession and traditional Library of Congress cataloging to methods of making cataloging more inclusive and helpful to library users Other essay topics include historical overviews of cataloging practices and the literature they generate first person discussions of library workers experiences with cataloging or metadata work and the implications behind what materials get cataloged who catalogs them and how Several essays provide a critical overview of innovative cataloging practices and the ways that such practices have been successfully integrated in many of the nation s leading libraries Instructors considering this book for use in a course may request an examination copy here

The Portable MLIS Ken Haycock, Mary-Jo Romaniuk, 2017-12-07 In this update of the ideal introduction to the library profession the core competencies of professional librarians are presented in 14 essays supplemented with foundational principles and context The original edition of this book gained popularity as a required work for LIS because it uniquely provided a broad accessible overview of the core curricular areas and foundations for the library profession What distinguishes the book as an introduction to the work of professional librarians is that it s not just about information in context or about libraries and their mission Importantly it also covers the required competencies of professional librarians laying a firm foundation for future courses In this second edition each chapter has been revised and updated to take into account current thinking and references As with the first edition the book is organized around the foundations of the profession and key functional areas Questions such as how to think like a librarian and how to facilitate community development are specifically and explicitly addressed In compiling the book the editors sought out the leading thinkers educators and practitioners in each core area as chapter authors Each of the contributors provides an introduction to the knowledge skills and abilities associated with their respective area of expertise discusses current and emerging applications and explores trends and issues *Progressive Library Organizations* Alfred Kagan, 2015-03-27 This work presents the

history and impact of the seven most important progressive library organizations worldwide in Austria Germany South Africa Sweden United Kingdom and two in the United States Each organization is considered within its national context and in fact the English word organization does not quite fit the nature of all of the groups The South African organization LIWO was transitional in that it helped bring South African librarianship from apartheid to majority rule and then disbanded The other organizations or their successors are still working in one form or another Some of the organizations have had or continue to have vibrant local chapters though many of the original activists have recently retired or died The author has interviewed many of them at a time when they were assessing their life work and handing off to new generations **Critical Voices in Library and Information Work** Stephen Bales, Tina Budzise-Weaver, 2025-11-21 Critical Voices in Library and Information

Work presents 25 profiles of notable transformational library and information science LIS workers in the United States Canada and the UK all of whom are involved in progressive library and information work projects or research endeavors Discussing a piece of literature art or music that helped direct their path into socially conscious library work and that continues to inspire them interviewees provide insights into their work and the current state of critical librarianship They also reflect upon the current state of institutions including academic public and school libraries as well as special libraries The authors of the book present these conversations in a narrative form that situates their subjects professional work within their broader historical and cultural milieu while carefully supplementing the conversations with real world information and context The resulting collection gives insight into what grounds and inspires influential LIS professionals and highlights the diversity found in critical librarianship as one of its greatest strengths Together the professionals voices provide the reader with a better understanding of what drives their peers transformational LIS work Critical Voices in Library and Information Work presents the voices of professionals who hail from traditional and non traditional information environments and who have varying levels of experience The book will appeal to practicing library workers and information professionals as well as students and academics engaged in the study of LIS

She was a Booklegger Toni Samek, Moyra Lang, Keller R. Roberto, 2010 A compilation of reflections and tales from friends and other admirers who were influenced and inspired by Celeste West a feminist librarian lesbian publisher and activist Provided by publisher **Libr@ries** Cushman

Kapitzke, Bertram C. Bruce, 2006 This volume is the first to examine the social cultural and political implications of the shift from the traditional forms and functions of print based libraries to the delivery of online information in educational contexts Libr@ries are conceptualized as physical places virtual spaces communities of literate practice and discourses of information work Despite the centrality of libraries in literacy and learning the study of libraries has remained isolated within the disciplinary boundaries of information and library science since its inception in the early twentieth century The aim of this book is to problematize and thereby mainstream this field of intellectual endeavor and inquiry Collectively the contributors interrogate the presuppositions of current library practice seek to understand how library as place and library as space blend together in ways that may be both contradictory and complementary and envision new modes of information access and new multimodal literacies enabled by online environments Libr@ries Changing Information Space and Practice is intended for advanced undergraduate and graduate students researchers and educators in the fields of literacy and multiliteracies education communication technologies in education library sciences information and communication studies media and cultural studies and the sociology of computer mediated space **Women in Print** James P. Danky, Wayne A. Wiegand, 2006-04-01 Women readers editors librarians authors journalists booksellers and others are the subjects in this stimulating new collection on modern print culture The essays feature women like Marie Mason Potts editor of Smoke Signals a mid twentieth century periodical of the Federated Indians of California Lois Waisbrooker publisher of books and

journals on female sexuality and women's rights in the decades after the Civil War and Elizabeth Jordan author of two novels and editor of Harper's Bazaar from 1900 to 1913 The volume presents a complex and engaging picture of print culture and of the forces that affected women's lives in the nineteenth and twentieth centuries Published in collaboration among the University of Wisconsin Press the Center for the History of Print Culture in Modern America a joint program of the University of Wisconsin Madison and the Wisconsin Historical Society and the University of Wisconsin Madison General Library System Office of Scholarly Communication
