Revolution & Religion in Ethiopia Oeyvind Eide, Øyvind M. Eide, 2000 Studies of the 1974 Ethiopian revolution have hitherto almost completely ignored religion in spite of the commitment of a great majority of Ethiopian people to one or another religious tradition Eide traces the journey from support for the revolution by the church leaders and local members to their suspected alliance with opposition forces *Political Religion, Everyday Religion: Sociological Trends* Pål Repstad, 2019-04-09 As the title suggests Political Religion Everyday Religion Sociological Trends reflects upon two important trends that have recently emerged in the sociology of religion Firstly there is an increasing interest in the interplay between religion and politics Religion has moved from being almost ignored by sociologists to being acknowledged some would even say overrated as an important political factor Secondly ordinary people's everyday religion has likewise become an important topic for many researchers In this book James Beckford Inger Furseth and other prominent scholars present critical discussions and empirical studies of both political and everyday religion and the editor Pål Repstad shows how these two trends should enter into a closer dialogue The book is essential for both students and experienced researchers in the sociology of religion Contributors are James A Beckford Inger Furseth Kristina Grundetjern Jan Olav Henriksen Ida Marie Heg Nils Martinus Justvik Bjarte Leer Helgesen Paul Leer Salvesen Anne L vland Tomas Rasmussen Pål Repstad Tale Steen Johnsen and Irene Trysnes **Conflict, Politics, and the Christian East** Christopher Rhodes, George Soroka, 2021-11-29 This book brings a crucial perspective to the examination of religion and politics in the Middle East and North Africa MENA by focusing on the roles that Christian communities play in this region Acknowledging and exploring their political activity represents a much needed contribution to the MENA literature which overwhelmingly focuses on Islam Through a collection of country case studies utilizing a variety of analytic methods the contributors to this collection demonstrate how various Christian groups act as rational strategic political actors seeking to protect and promote the interests of their organizations and members The cases explored here elaborate upon how Christians in the MENA region navigate their minority status and respond to local ideas of citizenship that often relegate them to second class status The chapters also examine how MENA Churches draw on transnational networks to augment their local political influence This volume is an important work for understanding contemporary politics in the MENA region and advances the study of religion's role in politics more generally The chapters in this book were originally published as a special issue of the journal Religion State and Society
