Revolution Of The Right Europes New Conservatives:

Confronting the New Conservatism Michael Thompson, 2007-05 The new conservatism in America is not easy to define having as it does many strands and many leading proponents This volume explores the ideas that unite Paul Wolfowitz Condoleeza Rice Jeanne Kirkpatrick and other US notables The Conservative Human Rights Revolution Marco Duranti, 2017 The Conservative Human Rights Revolution reconsiders the origins of the European human rights system arguing that its conservative inventors foremost among them Winston Churchill conceived of the European Convention on Human Rights ECHR as a means of realizing a controversial political agenda and advancing a Christian vision of European identity Liberalism Versus Conservatism François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what to these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title an author Revolution of the Right Simon Gunn, 1989-01-01 New Conservatives in Russia and East Central Europe Katharina Bluhm, Mihai Varga, 2018-08-14 This book explores the emergence and in Poland Hungary and Russia the coming to power of politicians and political parties rejecting the consensus around market reforms democratization and rule of law that has characterized moves toward an open society from the 1990s It discusses how over the last decade these political actors together with various think tanks intellectual circles and religious actors have increasingly presented themselves as conservatives and outlines how these actors are developing a new local brand of conservatism as a full fledged ideology that counters the perceived liberal overemphasis on individual rights and freedom and differs from the ideology of the established present day conservative parties of Western Europe Overall the book argues that the renaissance of conservatism in these countries represents variations on a new illiberal conservatism that aims to re establish a strong state sovereignty defining and pursuing a national path of development Party Transformations in European Democracies André Krouwel, 2012-11-20 Political parties regularly change and adapt in response to ever changing circumstances Until now these changes have frequently prompted both scholars and the media to suggest a whole new type of political party and over time the number of models and types has proliferated to the point of confusion contradiction and a loss of explanatory power In this sophisticated yet accessible study Andr Krouwel rejects this m lrange of models as inadequate He utilizes a wide range of data sources to analyze the ideological organizational and electoral change undergone by more than one hundred European parties in fifteen different countries from Scandinavia to the Iberian Peninsula between

1945 and 2010 The result is one of the most comprehensive empirically grounded studies to date of the genesis development and transformation of political parties in advanced democratic states **Revolution of the Right** Simon Gunn,1989 The political blueprint in Europe from the Netherlands to the Mediterranean is being rewritten to cope with economic crisis and to enlarge the state s role in business welfare immigration and education The author charts the change in Conservative policies on a Europe wide basis **Moments of Decision** Stephen Eric Bronner,1992 Moments of Decision takes a fascinating look at the course of radicalism in our time It orients progressives with respect to their traditions shows the relevance of the past to the present and provides a new political interpretation of the struggle for democracy and economic justice **Ideology in a Global Age** R. Soborski,2013-06-11 This book challenges the popular view that established ideologies no longer make sense in today s globalizing world Considered from a broad historical perspective major ideological traditions have not become destabilized and incoherent by globalization but remain meaningful political beliefs that shape the globalization debate *Capturing the Political Imagination* Diane Stone,2013-01-11 Think tanks are proliferating Although they are outside of government many of these policy research institutes are perceived to influence political thinking and public policy This book develops ideas about policy networks epistemic communities and policy learning in relation to think tanks
