Revolutionary China A Personal Account:

Revolutionary China Lin Dong, 1973 Studies Of China And Chineseness Since The Cultural Revolution - Volume 2: Micro Intellectual History Through De-central Lenses Chih-yu Shih, Mariko Tanigaki, Tina Clemente, 2023-01-04 Studies of China and Chineseness since the Cultural Revolution Volume 1 Reinterpreting Ideologies and Ideological Reinterpretations How did the Great Proletarian Cultural Revolution affect everyone's lives Why did people re negotiate their identities to adopt revolutionary roles and duties How did people who lived with different self understandings and social relations inevitably acquire and practice revolutionary identities each in their own light This book plunges into the contexts of these concerns to seek different relations that reveal the Revolution's different meanings Furthermore this book shows that scholars of the Cultural Revolution encountered emotional and intellectual challenges as they cared about the real people who owned an identity resource that could trigger an imagined thread of solidarity in their minds The authors believe that the Revolution's magnitude and pervasive scope always resulted in individualized engagements that have significant and differing consequences for those struggling in their micro context It has impacted a future with unpredictable collective implications in terms of ethnicity gender memory scholarship or career The Cultural Revolution is therefore an evolving relation beneath the rise of China that will neither fade away nor sanction integrative paths **Beyond Citizenship: Literacy and Personhood in Everyday China, 1900-1945** Di Luo, 2022-09-19 Beyond Citizenship focuses on the role of literacy in building a modern nation state by examining the government provision of adult literacy training in early twentieth century China Based on untapped archives and diaries Di Luo uncovers people's strategic use of literacy and illiteracy in social interactions and explores the impact of daily experiences on the expansion of state power Highlighting interpersonal and intergroup relations Beyond Citizenship suggests a new methodology of studying literacy which foregrounds the agentive role of historical actors and so moves away from a more traditional approach that treats literacy itself as the key factor enabling social change **Edgar Snow's China** Edgar Snow, 1981 Photographs and text describe the events of the years that journalist Edgar Snow spent in China ranging from the late 1920s to the Communist Revolution in 1949 *Translations on Communist China* United States. Joint Publications Research Service, 1965 **Revolutionary China** William L. Tung, 1973 **Chinese Medicine in Early Communist China, 1945-1963** Kim Taylor, 2004-08-02 Using original sources this significant text looks at the transformation of Chinese medicine from a marginal side lined medical practice of the early twentieth century to an essential and high profile part of the national health care system under the Chinese Communist Party The political economic and social motives which drove this promotion are analyzed and the extraordinary role that Chinese medicine was meant to play in Mao Zedong's revolution is fully explored for the first time making a major contribution to the history of Chinese medicine **Chinese Medicine in Early Communist China, 1945-63** Kim Taylor, 2005 Using original sources this significant text looks at the transformation of Chinese medicine from a marginal side lined medical practice of

the early twentieth century to an essential and high profile part of the national health care system under the Chinese Communist Party The political economic and social motives which drove this promotion are analyzed and the extraordinary role that Chinese medicine was meant to play in Mao Zedong s revolution is fully explored for the first time making a major contribution to the history of Chinese medicine A History of the Chinese Communist Party Stephen Uhalley,1988
