Robinson Jeffers J. Phillips,2016-03-03 A portrait and an introduction to the poetry of Robinson Jeffers **A Literary History of the American West** Western Literature Association (U.S.),1987 Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long knowns to be of historical importance are also experiences that need and deserve a literature of importance **Portraits of Medea in Portugal during the 20th and 21st Centuries** Andrés Pociña Pérez,Aurora López,Carlos Ferreira Morais,Maria de Fátima Silva,Patrick Finglass,2018-11-01 The theme of Medea in Portuguese literature has mainly given rise to the writing of new plays on the subject The central episode in the Portuguese rewritings in the last two centuries is the one that takes place in Corinth i e the break between Medea and Jason on the one hand and Medea s killing of their children in retaliation on the other Besides the complex play of feelings that provides this episode with very real human emotions gender was a key issue in determining the interest that this story elicited in a society in search of social renovation after profound political transformations during the transition between dictatorship and democracy which happened in 1974 that generated instability and established a requirement to find alternative rules of social intercourse in the path towards a new Portugal *Shine, Perishing Republic* Rudolph Gilbert, *Material Dreams* Kevin Starr,1990 In *Material Dreams* Starr turns to one of the most vibrant decades in the Golden State s history the 1920s when some two million Americans migrated to California the vast majority settling in or around Los Angeles Although he treats readers to intriguing side trips to Santa Barbara and Pasadena Starr focuses here mainly on Los Angeles revealing how this major city arose almost defiantly on a site lacking many of the advantages required for urban development creating itself out of sheer will the Great Gatsby of American cities He describes how William Ellsworth Smyth the Peter the Hermit of the Irrigation Crusade propounded the importance of water in Southern California s future and how such figures as the self educated Irish engineer William Mulholland who built the main aquaducts to Los Angeles and George Chaffey who diverted the Colorado River transforming desert into the lush Imperial Valley brought life supporting water to the arid South He examines the discovery of oil Yes it s oil oil oil that makes LA boil

went the official drinking song of the Uplifters Club the boosters and land developers the evangelists such as Bob Shuler the Methodist Savanarola of Los Angeles and Aimee Semple McPherson and countless other colorful figures of the period There are also fascinating sections on the city's architecture such as the remarkably innovative Bradbury Building and its eccentric neophyte designer George Wyman the impact of the automobile on city planning the great antiquarian book collections the Hollywood film community and much more By the end of the decade Los Angeles had tripled in population and become the fifth largest city in the nation In *Material Dreams* Kevin Starr captures this explosive growth in a narrative tour de force that combines wide ranging scholarship with captivating prose

Portraits Edward Weston, 1995 Weston seized the photographic moment through a shrewd and unusual technique by only pretending to shoot film for a period of time before actually taking the photograph and then flashing the lens cap without the subjects knowing he cleverly guided them beyond the pose even allowing his sitters to wander freely about the studio

The Anatomy of Drama Alan Reynolds Thompson, 2023-11-15 *The Anatomy of Drama* by Alan Reynolds Thompson argues that drama as an art form is essential to the vitality of civilization especially during times of global upheaval Thompson asserts that while art is often overlooked during crises it is a key measure of a culture's quality He argues that truly impactful drama stems from more than mere technical skill or entertainment value it requires a deep engagement with the social ethical and psychological issues of its time Thompson emphasizes that an understanding of a dramatist's cultural and philosophical background is crucial as the writer's environment and beliefs profoundly shape their work This book encourages readers from students to theater professionals to study drama within its broader context linking plays not only to theatrical traditions but also to the historical and social forces that give them meaning Thompson also highlights the role of audiences in sustaining a vibrant theater culture He suggests that universities should focus not just on producing professionals but also on cultivating educated audiences who can appreciate the substance of a play beyond its surface appeal Such audiences would demand quality from the theater fostering an environment where plays of genuine artistic and intellectual value can thrive Addressing the structural challenges faced by playwrights in the American theater system Thompson advocates for greater support for emerging playwrights and stresses that a living drama is essential for the cultural health of society In this way Thompson envisions a theater that not only entertains but also inspires educates and enriches its community preserving civilization's core values through art This title is part of UC Press's *Voices Revived* program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1942

Bohemian Los Angeles Daniel Hurewitz, 2008-04-30 Historian Hurewitz brings to life a vibrant and all but forgotten milieu of artists leftists and gay men and women whose story played out over the first half of the twentieth century and continues to shape the entire American landscape In a hidden corner of

Los Angeles the personal first became the political the nation's first enduring gay rights movement emerged and the broad spectrum of what we now think of as identity politics was born Portraying life over more than forty years in the hilly enclave of Edendale now part of Silver Lake Hurewitz considers the work of painters and printmakers looks inside the Communist Party's intimate cultural scene and examines the social world of gay men He discovers why and how these communities inspiring both one another and the city as a whole transformed American notions of political identity with their ideas about self expression political engagement and race relations From publisher description
