The Post-Apocalyptic Primer K. Bradbury, 2011-01-24 While no one looks forward to what comes after Doomsday author K. Scott Bradbury prompts readers to consider what will happen and how to mentally and physically prepare. In his debut work of nonfiction *The Post Apocalyptic Primer* he examines what life might look like after the end of the world and it's not as abysmal as some might fear. In ten chapters including *Assessing Your Existing Survival Skills*, *Civilization After the Fall of Civilization* and *Eat Drink and Be Wary* Bradbury offers commonsense strategies that exponentially boost one's chances of a bright future. Among other Apocalyptic scenarios he describes what one might expect after a seismic catastrophe, an ice age, event, nuclear war, and alien invasion, as well as the stages of disorder which he breaks down into *Instant Coming Soon* and *Slow Burn* events. Where someone lives makes a big difference, but besides new threats, there are also new careers, new hobbies, and a whole new adventure; the only trick is to be ready for it. **The Worst We Can Find** Dale

Sherman, 2023-06-15 Had you tuned in to the small television station KTMA on Thanksgiving Day 1988, you would have been one of the few witnesses to pop culture history being made. On that day, viewers in and around St. Paul, Minnesota, were treated to a genuine oddity in which a man and his robots, trapped within a defiantly DIY sci-fi set, cracked jokes while watching a terrible movie. It was a cockeyed twist on the local TV programs of the past in which a host would introduce old, cheaply licensed films. And though its origins may have been inauspicious, *Mystery Science Theater 3000* captured the spirit of what had been a beloved pastime for generations of wags, wiseacs, and smartalecks, and would soon go on to inspire countless more. *The Worst We Can Find* is a comprehensive history of and guide to MST3K and its various offshoots, including *Rifftrax Cinematic Titanic* and *The Mads Are Back*, whose lean crew of writers, performers, and puppeteers have now been making fun of movies for over thirty years. It investigates how riffing of films evolved, recounts the history of these programs, and considers how a practice guaranteed to annoy real-life fellow moviegoers grew into such a beloved, long-lasting franchise. As author Dale Sherman explains, creative heckling has been around forever, but MST3K and its progeny managed to redirect that art into a style that was both affectionate and cutting, winning the devotion of countless fans and aspiring riffers. [Comic Galaxy of Mystery Science Theater 3000](#) Chris Morgan, 2015-01-27 One of the most original shows in the history of television, *Mystery Science Theater 3000* is a beloved cult hit built on the back of another cult phenomenon: the bad movie. The show's premise involved a man and some robots watching cheesy movies and cracking jokes. Over its 197 episodes, MST3K developed a passionate fan base that took it from a local UHF show in Hopkins, Minnesota, to a major motion picture. This is the story of MST3K from the beginning to the end. Twelve of the episodes are covered, giving an in-depth look at the show's ethos and its comedic style. The films screened in these episodes are discussed critically, as are the episodes themselves. **In the Peanut Gallery with Mystery Science Theater 3000** Robert G. Weiner, Shelley E.

Barba, 2014-01-10 The award-winning television series *Mystery Science Theater 3000* (1988-1999) has been described as the smartest, funniest show in America and forever changed the way we watch movies. The series featured a human host and a

pair of robotic puppets who while being subjected to some of the worst films ever made provided ongoing hilarious and insightful commentary in a style popularly known as riffing These essays represent the first full length scholarly analysis of Mystery Science Theater 3000 MST3K which blossomed from humble beginnings as a Minnesota public access television show into a cultural phenomenon on two major cable networks The book includes interviews with series creator Joel Hodgson and cast members Kevin Murphy and Trace Beaulieu Horror and Science Fiction Films IV Donald C. Willis,1997-08-07 This fourth title in a unique series that combines reference and analytical qualities in chronicling the horror and science fiction genres Horror and Science Fiction Films IV brings the earlier three volumes in the series up to date concentrating on the period from 1984 1994 as well as updating entries from the previous volumes and adding newly discovered titles from 1900 1983 Entries in the main list include credits cast synopsis and annotation The introduction lists 1995 releases in the genres and 1996 releases through the summer cites the more memorable films in the genres for both the current period and 1900 1984 and serves as an index to key titles in the main list including long lost titles such as the obscure silent Were Tiger and the 1931 The Phantom Willis includes many films from around the world that are not found in any other English language film reference work One appendix provides thumbnail descriptions of problem and peripheral films another updates entries in the first three books with alternate titles and a third appendix serves as an index to the approximately 7 000 films listed in the first three volumes in the series as well as in the current volume thus bringing the total number of films covered in this series to roughly 11 000 titles *Fantastic Cinema Subject Guide* Bryan Senn,2024-10-16 About 2 500 genre films are entered under more than 100 subject headings ranging from abominable snowmen through dreamkillers rats and time travel to zombies with a brief essay on each topic development highlights and trends Each film entry shows year of release distribution company country of origin director producer screenwriter cinematographer cast credits plot synopsis and critical commentary
