Encyclopedia of the American Novel Abby H. P. Werlock, 2015-04-22 Praise for the print edition no other reference work on American fiction brings together such an array of authors and texts as this [What's the Meaning of "This"?](#) David F. Austin, 2019-06-30 A variety of examples in recent literature on philosophy of mind and language raise serious problems for the traditional analysis of belief and the other so called propositional attitudes as a two term relation between a believer and a proposition Because of the attractiveness of the traditional analysis and the absence of a clear alternative such examples raise genuine puzzles about belief In this lucid and rigorous book David F Austin provides a new test case for any

theory of the propositional attitudes Focusing on a puzzle about beliefs that we express using the demonstratives this and that Austin shows that a key doctrine in the analytic tradition the doctrine of propositions is threatened by inconsistency The author first explains why the traditional doctrine requires individual propositions to accommodate Kripkean intuitions for direct reference Austin then formulates a deep puzzle about demonstrative belief using the book's central example the Two Tubes case which involves simultaneous consistent occurrent demonstrative beliefs resulting from direct visual perception Austin argues that none of the leading propositional theories solves this puzzle nor do the self attributive views of Chisholm and Lewis or Kaplan's three term view Austin concludes that although his puzzle remains a puzzle it gives us reason to supplement rather than abandon the use of propositions in analyzing thought and he sketches a three term Russian alternative
