Así mismo la discusión sobre el humanismo, el posthumanismo y el llamado transhumanismo es medular hoy en la filosofía política y moral y establece un complejo diálogo transversal entre la filosofía, las humanidades, las ciencias naturales y las ciencias sociales e incluso implica ecos en campos como el management y las políticas públicas. Las diferentes contribuciones de los autores que han participado en esta obra sobre el posthumanismo y el transhumanismo deben entenderse desde una perspectiva centrada en el papel que juegan las enormes transformaciones científico-técnicas del mundo en términos de una cuarta revolución digital, biotecnológica e informacional. Por lo tanto es de vital importancia la existencia de laboratorios de políticas públicas en la perspectiva de fomentar la reflexión académica y la organización de líneas de investigación científico-social y humanista para darle un escenario institucional a espacios de formación con el fin de analizar las disrupciones y pensar la postmodernidad, el posthumanismo y el transhumanismo como ejemplos vertebrales para analizarlos en sus impactos sobre las gobernanzas, las administraciones y las políticas públicas.
