[A Comprehensive Survey of Rock Art in Upper Tibet: Volume III](#) John Vincent Bellezza, 2024-08-08. Focusing on the Eastern half of Stod, this is the third in a series of five volumes that comprehensively document rock art in Upper Tibet. It examines a panoply of graphic evidence found on stone surfaces supplying an unprecedented view of the long-term development of culture and religion on a large swathe of the Tibetan Plateau. [Purāṭna](#) Chedambattu Margabandhu, 2002. Senior archaeologists and scholars have contributed their recent researches to this volume in honour of Sri Jagat Pati Joshi, former Director General, Archaeological Survey of India. The 3-volume set has 15 sections: prehistory, protohistory, iron age, historical archaeology, medieval archaeology, interpretation, epigraphy, architecture, sculpture, history, literature, preservation, and recent discoveries. *Mountain Temples and Temple Mountains* Nachiket Chanchani, 2019-04-01. From approximately the third century BCE through the thirteenth century CE, the remote mountainous landscape around the glacial sources of the Ganga/Ganges River in the Central Himalayas in northern India was transformed into a region encoded with deep meaning, one approached by millions of Hindus as a primary locus of pilgrimage. Nachiket Chanchani's innovative study explores scores of stone edifices and steles that were erected in this landscape. Through their forms, locations, interactions with the natural environment, and sociopolitical context, these lithic ensembles evoked legendary worlds, embedded historical memories in the topography, changed the mountain range's appearance, and shifted its semiotic effect. *Mountain Temples and Temple Mountains* also alters our understanding of the transmission of architectural knowledge and provides new evidence of how an enduring idea of India emerged in the subcontinent. [Studies on Karachi](#) Sabiah Askari, 2015-10-05. The conference on Karachi in 2013 was the first event arranged by a newly created body, The Karachi Conference Foundation, designed to deliberate on all aspects of the city's life. This book, bringing together the papers presented at the Conference, represents a landmark in scholarship on the mega-city and its issues. It is always a matter of great interest to see how certain societies have developed, starting out as Stone Age sites and flourishing as throbbing urban centres. While not every stage of this process is always documented, the records of remnants collected often help in painting a portrait that provides insights into this transformation. This is what *Studies on Karachi* does. Lay readers and scholars in a range of different disciplines with an interest in how a sleepy settlement in the late medieval period developed into a mega-city will find this book particularly useful. What emerges from the various chapters is the depiction of a city that, despite its vibrancy, is afflicted with numerous problems ranging from poor planning to colossal mismanagement. Women, marginalized communities, neglected areas, issues of planning, and

development and the history and the anthropology of Karachi are all particular foci of attention throughout the book

Paddayya, 2002 Illustrations Numerous B w Illustrations Maps Description This volume contains papers contributed by senior scholars from both India and abroad who have first hand and longstanding experience in Indian archaeology The papers aim to synthesize existing knowledge on major topics in Indian archaeology These topics cover prehistory proto history rock art historical and medieval archaeology scientific studies human skeletal biology and dating methods While serving as comprehensive reviews on the retrospective topics these essays will also fulfill the purpose of highlighting the gaps in our current knowledge and help plan further research to fill them up **Indigenous Archaeology in India** Ajay Pratap, 2009 In this book the author presents his findings connected with the archaeology of the Rajmahal Hills Jharkhand State north eastern India and discusses the wider relevance of his surface archaeology approach to the archaeology of the rest of the tribal areas of India He also approaches the issue of a gendered study of rock art and landscape archaeology both of which again fall within the domain of tribal archaeology proper The author also has a keen interest in the theory of history and archaeology and writes about this subject in several of the chapters Further sections engage in theoretical debates regarding the relationship between history and archaeology The study concludes that it may be possible to delineate a separate domain for the archaeology of the tribal areas called subaltern archaeology The present work breaks further new ground in historical and archaeological research in terms of the fieldwork undertaken in the Rajmahal Hills and elsewhere in India the novel idea being that the tribal population of India does have a long term past an issue thus far relatively rarely investigated
