Nite, Tom Feran, 2020-09 The behind the scenes battle for the Rock Hall For 25 years the Rock and Roll Hall of Fame has defined Cleveland s image as the Rock and Roll Capital of the World But while the Rock Hall has become an iconic landmark for the city of Cleveland and for fans of rock and roll around the world it was just one missed phone call away from never being built in Cleveland If the prominent singer and actress Leslie Gore hadn t contacted radio personality Norm N Nite in August 1983 the Hall of Fame would not be in Cleveland period Earlier that summer Gore had learned that the newly formed Rock and Roll Hall of Fame Foundation was looking for a city to house their planned museum honoring the history of rock Gore knew that a year earlier Nite had pitched an idea for a similar museum so she reached out to let him know that other figures in the music industry were working to

turn his dream into a reality Nite immediately joined the project's Rules and Nominating Committee and spearheaded the campaign to bring the museum to Cleveland At the time the search committee was considering several other cities including Memphis Detroit and New York but Nite argued that the city's deep historical connection to rock music through Alan Freed and the Moondog Coronation Ball made Cleveland the perfect location He began lobbying local and state politicians fundraising with music moguls and civic leaders and promoting the museum to the broader Cleveland public As fans got involved especially with their overwhelming response to a USA Today phone poll Nite's campaign to bring the Hall to Cleveland was ultimately successful This book told from Nite's insider perspective draws on both first person accounts and exclusive interviews with influential business leaders government officials and giants of the music industry A detailed record of the Rock Hall's inception and creation *The House That Rock Built* becomes a true tribute to the people who made it happen through Herculean efforts and to the music it celebrates
