Roman Imperial Portrait Practice in the Second Century AD Christian Niederhuber,2022-06-16 It has long been thought that imperial portrait types were officially commissioned to commemorate specific historical moments and that they were made available to both the mint and the marble workshops in Rome assuming a close correspondence between portraits on coins and in the round All of this however has never been clearly proven nor has it been disproven by a close systematic examination of the evidence on a broad material basis by those scholars who have questioned it Through systematic case studies of Faustina the Younger s and Marcus Aurelius portraits on coins and in sculpture this book provides new insights into the functioning of the imperial image in Rome in the second century AD that move a difficult much discussed subject forward decisively The new evidence presented here has made it necessary to adjust the established model more flexibility is needed to describe the processes and practices behind the phenomenon of repeated imperial portraits and how the imperial portrait worked in the mint of Rome and in the metropolitan marble workshops **The Crafty Reader** Robert

Davis,Philip D. Beidler,1984-10-30 Readers of Mark Twain seldom doubt his genius but defining that genius and locating its source continue to challenge students of American literature Equally elusive is an explanation of the intriguing phenomenon of Twain as a mythic figure both shaper and embodier of an American mythos Perhaps no single critical approach can adequately assess the complex force behind Samuel Clemens and Mark Twain This native genius our quintessential artist rightfully provokes a number of powerful responses as these original essays demonstrate
