Huge mountain ranges and vast uninhabited areas characterize the Mountain West The region is home to several dense urban centers but there is enough space between cities for three very distinct religious cultures to develop Arizona and New Mexico s religious public life is still dominated by the Catholic church which was in place three centuries before these areas became U S states Mormons came to Utah and Idaho in the 19th century to set up their own church state and only later were admitted to the Union Religious minorities from Native Americans to mainstream Protestants must contend with these religious establishments In the third subregion of Colorado Wyoming and Montana no one religious body dominates and many inhabitants claim no religious affiliation at all *Religion and Public Life in the Mountain West* explores these three

Raymond E. Dumett,2016-12-05 The years of the late nineteenth and early twentieth centuries aptly described by Mark Twain as the Gilded Age witnessed an unprecedented level of technological change material excess untrammled pursuit of profit and imperial expansion Within this dynamic and often ruthless environment many colorful characters strode across the world stage among them the great mining tycoons who with the thousands of prospectors diggers shift bosses timbermen blastmen and muckers in mining enterprise constituted one of the major spearheads of global capitalistic expansion and colonial exploitation This volume which carries the epic story to the mid twentieth century provides a truly international perspective on the role of mining entrepreneurs investors and engineers in shaping the economic and political map of the globe in testing management techniques and in setting a vogue for extravagant displays of wealth among the world s rich Each chapter is loosely focussed on a biographical account of a particular mining tycoon that allows for broad and comparative accounts to be made about the individuals their business interests the technologies they employed and the national and international political considerations under which they operated Furthermore this structure also allows for consideration of the effect that these tycoons had on the countries and territories in which they worked particularly the often long lasting impact on indigenous populations the environment transport links and economic development By approaching the subject matter through this stimulating mix of cultural social economic business and colonial history many intriguing and thought provoking conclusions are reached that will reward any scholars with an interest late nineteenth and early twentieth century history Battles and Massacres on the Southwestern Frontier Ronald K. Wetherington,Frances Levine,2014-03-17

Battles and massacres are intimate affairs for combatants and others involved their physical and emotional violence often stemming from fervor and fear Although mass killing characterizes both battles and massacres the two are profoundly different Battles take place between armed forces massacres are one sided events in which the dead are mostly innocent victims Yet the fog of war shrouds both massacres and battles in a functional amnesia Participants remember what exactly happened during such a violent encounter only imperfectly and later clarity cannot always rectify accounts thus rendered Even naming the events as battles or massacres already imposes an interpretive framework upon them This unique study centers on four critical engagements between Anglo Americans and American Indians on the southwestern frontier the Battle of Cieneguilla 1854 the Battle of Adobe Walls 1864 the Sand Creek Massacre 1864 and the Mountain Meadows Massacre 1857 Editors Ronald K Wetherington and Frances Levine juxtapose historical and archaeological perspectives on each event to untangle the ambiguity and controversy that surround both historical and more contemporary accounts of each of these violent outbreaks Both disciplines the contributors make clear yield surprisingly similar narratives and interpretive agreement and the lessons learned from these nineteenth century killing fields about wartime reporting and command failures remain relevant today Contributions by T Lindsay Baker J Brett Cruse Will Gorenfeld Shannon A Novak Lars Rodseth
