Grant demonstrates how The Twilight Zone functioned as an ideal example of collective authorship that powerfully expressed both timeless terrors and the anxieties of the age such as the Cold War in thought provoking fantasy Grant argues that the imaginary worlds offered by the show ultimately endorse the Americanism it simultaneously critiques The striking blending of the fantastic and the familiar that Grant identifies in The Twilight Zone reflected Serling's goal of offering serious stories in a genre that had previously been targeted only to juvenile television audiences Longtime fans of the show and new viewers of Jordan Peele's 2019 reboot alike will enjoy this deep dive into the original series history style and significance

New Approaches in Teaching History Frederic

Krome,2024-02-14 Science fiction literature and film are an underappreciated source for the teaching of history Finding material that can excite a student s curiosity can be a key towards greater student engagement especially among students who are taking history as a requirement rather than from interest The discovery that they can read or watch science fiction as part of their classwork often comes as a pleasant surprise Beyond its popularity however utilizing science fiction for class assignments has certain pedagogical advantages it introduces students to new vistas in historical thought helps them learn how literature and film can be applied as a primary source and can encourage participation in projects that are enjoyable Each chapter provides case studies focusing on a different subject in the modern history curriculum and in addition to providing an analysis of specific texts and or cinematic sources gives suggestions on assignments for the students **Rod Serling** Joel Engel,1989 Tells the intriguing story of the life of the man who created The Twilight Zone won six Emmys and a Peabody Award yet was a tormented man who doubted his writing ability **Reading Science Fiction** James Gunn,Marleen Barr,Matthew Candelaria,2018-01-19 Science Fiction is illuminated by world class scholars and fiction writers who introduce the history concepts and contexts necessary to understanding the genre Their groundbreaking approach provides insights into today s SF world and makes learning how to read Science Fiction an exciting collaborative process for teachers and students **In the Zone** Peter Wolfe,1997 The Twilight Zone explores the possibilities inhering in the ordinary A Twilight Zone episode can move us by being poignant and intimate rambunctious or thought provoking It can also be orchestrated as a set of intertwined plot developments or as a serial progression But regardless of whether it takes place on an asteroid in a city pool room or in the backwoods it will usually convey both a folklorist s eye for detail and the born raconteur s sense of pace Rod Serling the show s founder main scriptwriter and artistic director knew how much burden he could place on his rhetorical and dramatic gifts Deservedly celebrated as a pioneer in TV science fiction he also writes about history and loyalty the grip of everyday reality and the dangers of both forgetting about one s ghosts and giving them the upper hand **Stars at War** Marvin D. Pipher,2022-11-30 This book outlines the lives and achievements of one hundred entertainers and athletes mostly Americans who served their nations well both in times of war and in times of peace It spans the period from the Spanish American War 1898 up to 2020 but concentrates most heavily on World War II The book was initiated in response to an apparent difference noted between the reactions of entertainers and athletes to the events of September 11 2001 and those following the attack on Pearl Harbor on December 7 1941 It began as an effort to understand who those earlier people were what they did and why to identify the one hundred who did the most during World War II and to rank them in accordance with their achievements This proved to be an impossible task since there was no way to identify the one hundred and there was no common basis for comparison some were truly heroic some were wounded and some killed while others simply served to the best of their abilities The best that could be done was to categorize the men and women selected and subjectively rank them with their peers Over time this effort expanded to be more inclusive touching lightly upon the Spanish

American War World War I the Korean War Vietnam the war on terror and upon more recent events Some of those presented herein served before becoming famous some after some volunteered and some were drafted while others served as civilians in their chosen fields Two became presidents of the United States Three won the Congressional Medal of Honor Aside from their service however these were truly remarkable men and women whose stories deserve to be told if for no other reason than to give us a glimpse into the kinds of people who made the United States the greatest nation in the history of the world
