**The United States Constitution in Film** Eric T. Kasper, Quentin D. Vieregge, 2018-10-15. The U.S. Constitution is often depicted in popular films, teaching lessons about what this founding document means and what it requires. *Mr. Smith Goes to Washington* educates how a bill becomes a law. *12 Angry Men* informs us about the rights of the accused. *Selma* explores the importance of civil rights, voting rights, and the freedom of speech. *Lincoln* shows us how to amend the Constitution. Not only have films like these been used to teach viewers about the Constitution, they also express the political beliefs of directors, producers, and actors, and they have been a reflection of what the public thinks generally true or not about the meaning of the Constitution. From the indictment of Warren Court rulings in *Dirty Harry* to the defense of the freedom of the press in *All the President's Men* and *The Post*, filmmakers are often putting their stamp on what they believe the Constitution should mean and protect. These films can serve as a catalyst for nationwide conversations about the Constitution and as a way of either reinforcing or undermining the constitutional orthodoxies of their time. Put another way, these films are both symbols and products of the political tug of war over the interpretation of our nation's blueprint for government and politics. To the contemporary student and the casual reader, popular films serve as an understandable way to explain the Constitution. This book examines several different areas of the Constitution to illuminate how films in each area have tried to engage the document and teach the viewer something about it. We expose myths where they exist in film, draw conclusions about how Hollywood's constitutional lessons have changed over time, and ultimately compare these films to what the Constitution says and how the U.S. Supreme Court has interpreted it. Given the ever-present discussion of the Constitution in American politics and its importance to the structure of the U.S. government and citizens' rights, there is no question that the popular perceptions of the document and how people acquire these perceptions are important and timely.

**Speaking of Abortion** Andrea L. Press, Elizabeth R. Cole, 1999. Pro-life women from various classes were unified in their rejection of materialist values. This group strongly believed that a reduced family income was worth the sacrifice in order to stay home with children. Pro-life women also shared a general suspicion of the media as a source of information, turning instead to their understanding of science to validate their biblically derived worldview. Pro-choice women's beliefs, however, were divided along class lines. Working-class women defended choice because they viewed themselves as a group whose interests are continually threatened by legal authorities. In contrast, middle-class women argued for individual rights and thought abortion necessary for those who aren't financially ready. Many middle-class pro-choice women, the authors argue, share the same point of view as displayed on television.
