

A photograph of a dirt road winding through a forest. The trees are covered in autumn foliage, with shades of orange, yellow, and brown. The road leads towards a bright light at the end of the path, creating a strong sense of perspective. The overall mood is serene and contemplative.

Actors are rogues and
vagabonds. Or they ought to be.

account of the English actress's view of her own rise up to social and professional prominence from 1600 to the present Examining the actress's experience as distinct from the actor's this book charts her influence on each age's views of women's nature and their role in society Movable Londons Julia H. Fawcett, 2025-09-04 In September 1666 a fire sparked in a

bakery on Pudding Lane grew until it had destroyed four-fifths of central London The rebuilding efforts that followed not only

launched the careers of some of London's most famous architects but also transformed Londoners' relationship to their city by underscoring the ways that people could shape a city's spaces and the ways that a city's spaces could shape its people. Movable London looks to the Restoration theater to understand how the dispossessed made London into a modern city after the Great Fire of 1666 and how the introduction of changeable scenery in theaters altered how Londoners conceptualized the city. Fawcett makes a claim for the centrality of unplanned spaces and the role of the Restoration theater in articulating those spaces as the modern city emerged and argues that movable scenery revolutionized London's public theaters, inviting audiences to observe how the performers—many of them hailing from the same communities as their characters—navigated the stage.
