**Roland-Michel Barrin de La Galissoniere 1693-1756** Lionel Groulx, 1970-12-15 La Galissoniere was the most remarkable of the governors of New France in the eighteenth century although he spent only a short time there 1747 to 1749. He stood out above all through his intellectual qualities: his mind was brilliant, wide ranging and nourished by a creative imagination which was fertile in new ideas and rapid solutions. Roland Michel Barrin de la Galissoniere was born at Rochefort, France, in November 1693 to a family which included in its ranks members of the parlement, intendants, wealthy merchants and powerful officials. At 17 he joined the navy and after a successful career was sent to Canada at the age of 54 as commander in chief of the colony at a time when it was in great peril. Louisbourg and Acadia had been lost to the English; the Gulf of St. Lawrence was infested with English privateers; Quebec was under constant threat of invasion from the south and its vital alliance with the Indians was proving to be shaky. The western fur trading was ineffective because of the wartime interruption of commerce. La Galissoniere grasped the many problems quickly and clearly and set out to restructure the colony to join its badly fitting parts together in an organized whole. The attitude of his superiors at home was a major difficulty. Neither Vaudreuil nor Beauharnois, his predecessors, had been able to jolt the minister and the king out of their apathy concerning the colony. La Galissoniere made the alarm they had sounded timidly ring out in the offices of Versailles. He attempted desperately the impossible recovery they had not known how to carry out in time. This biographical essay paints a vivid and forceful picture of New France on the eve of the Seven Years War. *Contexts of Acadian History, 1686-1784* Naomi E.S. Griffiths, 1992-03-16 In 1600 there were no such people as the Acadians; by 1700 the Acadians, who numbered almost 2,000, lived in an area now covered by northern Maine, New Brunswick, Nova Scotia, Prince Edward Island and the southern Gasp region of Quebec. While most of their ancestors had come to live there from France, a number had arrived from Scotland and England. Their relations with the original inhabitants of the region, the Micmac and Malecite peoples, were generally peaceful. In 1713 the Treaty of Utrecht recognized the Acadian community and gave their territory on the frontier between New England and New France to Great Britain. During the next forty years the Acadians continued to prosper and to develop their political life and distinctive culture. The deportation of 1755, however, exiled the majority of Acadians to other British colonies in North America. Some went on from their original destination to England, France or Santo Domingo; many of those who arrived in France continued on to Louisiana; some Acadians eventually returned to Nova Scotia but not to the lands they once held. The deportation, however, did not destroy the Acadian community. In spite of a horrific death toll, nine years of proscription and the forfeiture of property and political rights, the Acadians continued to be part of Nova Scotia. The communal existence they were able to sustain, Griffiths shows, formed the basis for the recovery of Acadian society when in 1764 they were again permitted to own land in the colony. Instead of destroying the Acadian community, the deportation proved to be a source of power for the formation of Acadian identity in the nineteenth century. By placing Acadian history in

the context of North American and European realities Griffiths removes it from the realms of folklore and partisan political interpretation She brings into play the current historiographical concerns about the development of the trans Atlantic world of the seventeenth and eighteenth centuries considerably sharpening our focus on this period of North American history
