Political Conflict in Pakistan Mohammad Waseem, 2022-04-01 This book is a major reinterpretation of politics in Pakistan Its focus is conflict among groups communities classes ideologies and institutions which has shaped the country's political dynamics Mohammad Waseem critically examines the theory surrounding the millennium long conflict between Hindus and Muslims as separate nations who practiced mingled faiths and the Hindu Muslim and Sikh renaissances that created a twentieth century clash of communities and led to partition Political Conflict in Pakistan addresses multiple clashes between the high culture as a mission to transform society and the low culture of the land and the people between those committed to the establishment's institutional constitutional framework and those seeking to dismantle the colonial state between the corrupt and those seeking to hold them to account between the political class and the middle class and between civil and military power The author exposes how the ruling elite centralised power through the militarisation and judicialization of politics rendering the federalist arrangement an empty shell and thus grossly alienating the provinces He sets all this within the contexts of education and media as breeders of conflict the difficulties of establishing an anti terrorist regime and the state's pragmatic attempts at conflict resolution by seeking to keep the outsiders inside This is a wide ranging account of a country of contestations

license Law and Religion in the Commonwealth Renae Barker, Paul Babie, Neil Foster, 2022-06-30 This book examines law and religion from the perspective of its case law. Each chapter focuses on a specific case from a Commonwealth jurisdiction, examining the history and impact of the case both within the originating jurisdiction and its wider global context. The book contains chapters from leading and emerging scholars from across the Commonwealth, including from the United Kingdom, Canada, Australia, Pakistan, Malaysia, India, and Nigeria. The cases are divided into four sections covering Foundational Questions in Law and Religion, Freedom of Religion around the Commonwealth, Religion and state relations around the Commonwealth, Rights Relationships and Religion around the Commonwealth. Like religion itself, the case law covers a wide spectrum of life. This diversity is reflected in the cases covered in this book, which include *Titular Roman Catholic Archbishop of Kuala Lumpur v Home Minister on the use of the Muslim name for God by non-Muslims in Malaysia*, *The Church of the New Faith v Commissioner of Payroll Tax (Vic)*, which determined the meaning of religion in Australia, *Eweida v UK*, which clarified the application of Article 9 of the European Convention on Human Rights, *R v Big M Drug Mart* on the individual protections of religious freedom under the Canadian Charter of Rights. The book examines how legal disputes involving religion are among the most contested in the courts and shows that in these cases passions run high and the outcomes can have significant consequences for all involved.

Constitutionalism in Islamic Countries: Between Upheaval and Continuity Rainer Grote, Tilmann Röder, 2012-01-11 *Constitutionalism in Islamic Countries: Between Upheaval and Continuity* examines the question of whether something similar to an Islamic constitutionalism has emerged out of the political and constitutional upheaval witnessed in many parts of North Africa, the Middle East, and Central and Southern Asia. In order to identify its defining features and to assess the challenges that Islamic constitutionalism poses to established concepts of constitutionalism, this book offers an integrated analysis of the complex frameworks in Islamic countries, drawing on the methods and insights of comparative constitutional law, Islamic law, international law, and legal history. European and North American experiences are used as points of reference against which the peculiar challenges and the specific answers given to those challenges in the countries surveyed can be assessed. The book also examines ways in which the key concepts of constitutionalism, including fundamental rights, separation of powers, democracy, and rule of law, may be adapted to an Islamic context, thus providing valuable new insights on the prospects for a genuine renaissance of constitutionalism in the Islamic world in the wake of the Arab Spring.

Law, State and Inequality in Pakistan Muhammad Azeem,2017-07-02 Through a detailed historical and empirical account of post independence years this book offers a new assessment of the role of the judiciary in Pakistani politics Instead of seeing the judiciary as helpless or struggling against an authoritarian state it argues that the judiciary has been a crucial link in the creation of state and political inequality in Pakistan This rubs against the central role given to the judiciary in developing countries to fix the corrupt politicians and stubborn bureaucracies in the World Bank s Good Governance paradigm and rule of law initiatives It also challenges the contemporary legal and judicial discourse that extols the virtues of Public Interest Litigation While the book s core analysis is a critique of the contemporary liberal legal project it also adds to the critical tradition of social theory by linking political economy to a social theory of law The theoretical aspect of the study is applicable to any developing society whose judiciary is going through foreign sponsored rule of law judicial reforms

Sharia, Muslim States and International Human Rights Treaty Obligations Nisrine Abiad, 2008. This research undertaken from a comparative perspective with a view to identifying any patterns followed by Islamic countries in making declarations and reservations to the main international human rights treaties, measures and analyzes to what extent Sharia affects the ratification and implementation of human rights norms by Muslim States. An analysis of the various roles of Sharia reveals different approaches in the use of Islamic considerations by Muslim States. At an international level, Sharia has always been used upon the ratification of international human rights treaties to limit the scope of the State's engagement. Internally, however, some recent examples of legislative amendments and judicial activities demonstrate that Sharia is and can be used to achieve a better translation of human rights norms into domestic practice.

The Dynamics of Judicial Independence Lorne Neudorf, 2017-02-22. This book examines the legal principle of judicial independence in comparative perspective with the goal of advancing a better understanding of the idea of an independent judiciary more generally. From an initial survey of judicial systems in different countries, it is clear that the understanding and practice of judicial independence take a variety of forms. Scholarly literature likewise provides a range of views on what judicial independence means, with scholars often advocating a preferred conception of a model court for achieving true judicial independence as part of a rule of law system. This book seeks to reorient the prevailing approach to the study of judicial independence by better understanding how judicial independence operates within domestic legal systems in its institutional and legal dimensions. It asks how and why different conceptualisations of judicial independence emerge over time by comparing detailed case studies of courts in two legally pluralistic states which share inheritances of British rule and the common law. By tracing the development of judicial independence in the legal systems of Malaysia and Pakistan from the time of independence to the present, the book offers an insightful comparison of how judicial independence took shape and developed in these countries over time. From this comparison, it suggests a number of contextual factors that can be seen to play a role in the evolution of judicial independence. The study draws upon the significant divergence observed in the case studies to propose a refined understanding of the idea of an independent judiciary, termed the pragmatic and context-sensitive theory, which may be seen in contradistinction to a universal approach. While judicial independence responds to the core need of judges to be perceived

as an impartial third party by constructing formal and informal constraints on the judge and relationships between judges and others its meaning in a legal system is inevitably shaped by the judicial role along with other features at the domestic level The book concludes that the adaptive and pragmatic qualities of judicial independence supply it with relevance and legitimacy within a domestic legal system **Modern Challenges to Islamic Law** Shaheen Sardar Ali, 2016-10-06 The diversity of interpretation within Islamic legal traditions can be challenging for those working within this field of study Using a distinctly contextual approach this book addresses such challenges by combining theoretical perspectives on Islamic law with insight into how local understandings impact on the application of law in Muslim daily life Engaging with topics as diverse as Islamic constitutionalism Islamic finance human rights and internet fatawa Shaheen Sardar Ali provides an invaluable resource for scholars students and practitioners alike by exploring exactly what constitutes Islamic law in the contemporary world Useful examples case studies a glossary of terms and the author's personal reflections accompany traditional academic critique and together offer the reader a unique and discerning discussion of Islamic law in practice
