## **Role Of Consumer Organisations In Consumer Protection:**

Role of Consumer Organisations in Consumer Protection Chandrakant Sharma,1995 In the Indian context

Competition Law and Consumer Protection Katalin Judit Cseres,2005-01-01 The assumption that competition law and consumer protection are mutually reinforcing is rarely challenged The theory seems uncontroversial However because a positive interaction between the two is presumed to be self evident the frequent conflicts that do in fact arise are often dealt with on an ad hoc basis with no overarching legal authority There is a clear need for a detailed and coherent understanding of exactly where the complements and tensions between the two policy areas exist Dr Cseres in depth analysis provides that understanding Proceeding from the dual perspective of law and economics that is of justice fairness and reasonableness on the one hand and of efficiency of the other she fully considers such underlying issues as the following the role of competition law and consumer law in a free market economy the notion of consumer welfare the effect of the modernisation of EC competition law for consumers economics theories of information bounded rationality and transaction costs the special significance of vertical agreements and merger control and how consumers are affected by information asymmetries The ultimate focus of the book is on current and emerging EC law in which a rapprochement between the two areas seems to be under way Dr Cseres provides a knowledgeable guide to the various strands of theory policy and jurisprudence that she shows ought to be taken into account in the process including schools of thought and law and policy experience in both Europe and the United States A special chapter on Hungary where post 1989 law and practice reveal a fresh and distinctly forward looking understanding of the matter is one of the book s most extraordinary features Competition Law and Consumer Protection stands alone as a committed contribution to bridging a gap in legal knowledge the significance of which grows daily It will be of immeasurable value to a wide range of professionals from academics and researchers to officials policymakers and practitioners in competition law consumer protection advocacy economic theory and planning business administration and various pertinent government authorities

Europe Hans-W. Micklitz, 2021-11-04 This book analyses the founding years of consumer law and consumer policy in Europe It combines two dimensions the making of national consumer law and the making of European consumer law and how both are intertwined The chapters on Germany Italy the Nordic countries and the United Kingdom serve to explain the economic and the political background which led to different legal and policy approaches in the then old Member States from the 1960s onwards The chapter on Poland adds a different layer the one of a former socialist country with its own consumer law

and how joining the EU affected consumer law at the national level The making of European consumer law started in the 1970s rather cautiously but gradually the European Commission took an ever stronger position in promoting not only European consumer law but also in supporting the building of the European Consumer Organisation BEUC the umbrella organisation of the national consumer bodies The book unites the early protagonists who were involved in the making of consumer law in Europe Guido Alpa Ludwig Kr mer Ewa Letowska Hans W Micklitz Klaus Tonner Iain Ramsay and Thomas Wilhelmsson supported by the younger generation Aneta Wiewi rowska Domagalska Mateusz Grochowski and Koen Docter who reconstructs the history of BEUC Niklas Olsen and Thomas Roethe analyse the construction of this policy field from a historical and sociological perspective This book offers a unique opportunity to understand a legal and political field that of consumer law and policy which plays a fundamental role in our contemporary societies The Transformation of Consumer Law and Policy in Europe Hans-W.
