## Introduction

- The current assignment looks into the history of Pakistan in relation to the role played by the military in it. It discusses the ambitious generals' psyche, their arrogance and a smug belief in their ability to do things better than civilians. They took it upon themselves to 'sort out' the mess created by politicians and become the nation's 'saviours'. It is divided into sections roughly corresponding to military eras in chronological order - how an image-building process took place and from the small but fully disciplined elite of the colonial era

**The Man On Horseback** Samuel Edward Finer, 1988-04-13 In this work Finer d 1993 he taught government at Manchester U and Oxford U UK proposes a paradigm for the role of the military in politics that is based on the inherent weakness of the military in politics on the one hand and their potential for intervention on the other The book was first published by Pall Mall Press in 1962 this new edition contains an introduction by Jay Stanley sociology Towson U who is on the advisory council and editor for the journal of the Inter University Seminar on Armed Forces and Society Annotation copyrighted by Book News Inc Portland OR

**Political Roles and Military Rulers** Amos Perlmutter, 2014-04-23 This book represents three decades of Perlmutter s experiences and observations The author studies the relationship between the military and politics in Middle East focusing mainly on Egypt as a case study He concludes by analysing the effect this internal relationship has on military performance

The Man on Horseback Samuel Finer, 2017-09-04 The role of the military in a society raises a number of issues How much separation should there be between a civil government and its army Should the military be totally subordinate to the polity Or should the armed forces be allowed autonomy in order to provide national security Recently the dangers of military dictatorships as have existed in countries like Panama Chile and Argentina have become evident However developing countries often lack the administrative ability and societal unity to keep the state functioning in an orderly and economically feasible manner without military intervention Societies of course have dealt with the realities of these problems throughout their histories and the action they have taken at any particular point in time has depended on numerous factors In the first world of democratic countries the civil military relationship has been thoroughly integrated and indeed by most modern standards this is seen as essential However several influential Western thinkers have developed theories arguing for the separation of the military from any political or social role Samuel Huntington emphasized that professionalism would presuppose that the military should intervene as little as possible in the political sphere Samuel E Finer in contrast emphasizes that a government can be efficient enough way to keep the civil military relationship in check ensuring that the need for intervention by the armed forces in society would be minimal At the time of the book s original publication perhaps as a consequence of a post World War II Cold War atmosphere this was by no means a universally accepted position Some considered the military to be a legitimate threat to a free society Today s post Cold War environment is an appropriate time to reconsider Finer s classic argument The Man on Horseback continues to be an important contribution to the study of the military s role in the realm of politics and will be of interest to stu

rule in most countries herald an end to their role as actors in domestic politics Has political intervention by the military been superseded This comparative examination of the politicized armed forces looks at the consequences of military rule for nation building and economic development the effects of the passing of the Cold War and the rise of globalization on the political role of the military the role of political armies in the consolidation of civil politics and democratic governance the lessons for policy makers in global governance and post conflict reconstruction The contributors build on successive theories about the role of the military in politics and look to the future The most threatening scenario may be a proliferation of armed actors and the rise of privatized forces of law and order **Military Politics, Islam, and the State in Indonesia** Marcus

Mietzner, 2009 Based on a decade of research in Indonesia this book provides an in depth account of the military's struggle to adapt to the new democratic system after the downfall of Suharto's authoritarian regime in 1998 Unlike other studies of the Indonesian armed forces which focus exclusively on internal military developments Mietzner's study emphasizes the importance of conflicts among civilians in determining the extent of military involvement in political affairs Analysing disputes between Indonesia's main Muslim groups Mietzner argues that their intense rivalry between 1998 and 2004 allowed the military to extend its engagement in politics and protect its institutional interests The stabilization of the civilian polity

after 2004 in contrast has led to an increasing marginalization of the armed forces from the power centre Drawing broader conclusions from these events for Indonesia s ongoing process of democratic consolidation the book shows that the future role of the armed forces in politics will largely depend on the ability of civilian leaders to maintain functioning democratic institutions and procedures

*Military Politics and Democracy in the Andes* Maiah Jaskoski, 2013-08-15 Interviews with active duty and retired military officers in Ecuador and Peru shed light on the evolution of Andean civil military relations with implications for democratization Military Politics and Democracy in the Andes challenges conventional theories regarding military behavior in post transition democracies Through a deeply researched comparative analysis of the Ecuadorian and Peruvian armies Maiah Jaskoski argues that militaries are concerned more with the predictability of their missions than with sovereignty objectives set by democratically elected leaders Jaskoski gathers data from interviews with public officials private sector representatives journalists and more than 160 Peruvian and Ecuadorian officers from all

branches of the military The results are surprising Ecuador's army for example fearing the uncertainty of border defense against insurgent encroachment in the north neglected this duty thereby sacrificing the state's security goals acting against government orders and challenging democratic consolidation Instead of defending the border the army has opted to carry out policing functions within Ecuador such as combating the drug trade Additionally by ignoring its duty to defend sovereignty the army is available to contract out its policing services to paying private companies that relative to the public benefit disproportionately from army security Jaskoski also looks briefly at this theory's implications for military responsiveness to government orders in democratic Bolivia Colombia and Venezuela and in newly formed democracies more broadly

**The Political Resurgence of the Military in Southeast Asia** Marcus Mietzner, 2012-11-12 In the late 1990s prominent scholars of civil military relations detected a decline in the political significance of the armed forces across Southeast Asia A decade later however this trend seems to have been reversed The Thai military launched a coup in 2006 the Philippine armed forces expanded their political privileges under the Arroyo presidency and the Burmese junta successfully engineered pseudo democratic elections in 2010 This book discusses the political resurgence of the military in Southeast Asia throughout the 2000s Written by distinguished experts on military affairs the individual chapters explore developments in Burma Thailand the Philippines Vietnam East Timor Indonesia and Singapore They not only assess but also offer explanations for the level of military involvement in politics in each country Consequently the book also makes a significant contribution to the comparative debate about militaries in politics Whilst conditions obviously differ from country to country most authors in this book conclude that the shape of civil military relations is not predetermined by historic economic or cultural factors but is often the result of intra civilian conflicts and divisive or ineffective political leadership
