from social scientists policymakers and the media black Americans do in fact get married and many of these marriages last

for decades *Marriage in Black* offers a progressive perspective on black marriage that rejects talk of black relationship pathology in order to provide an understanding of enduring black marriage that is richly lived. The authors offer an in depth investigation of details and contexts of black married life and seek to empower black married couples whose intimate relationships run contrary to common but often inaccurate stereotypes. Considering historical influences from Antebellum slavery onward this book investigates contemporary married life among more than 60 couples born after the passage of the Civil Rights Act. Husbands and wives tell their stories from how they met to how they decided to marry to what their life is like five years after the wedding and beyond. Their stories reveal the experiences of the American born and of black immigrants from Africa or the Caribbean with explorations of the ideal marriage parenting finances work conflict the criminal justice system religion and race. These couples show us that black family life has richness that belies common stereotypes with substantial variation in couples experiences based on social class country of origin gender religiosity and family characteristics.

Handbook of Interpersonal Commitment and Relationship Stability Jeffrey M. Adams, Warren H. Jones, 2012-12-06 A fundamental assumption underlying the formation of our most important relationships is that they will persist indefinitely into the future. As an acquaintanceship turns into a friendship for example both members of this newly formed interpersonal bond are likely to expect that their interactions will become increasingly frequent diverse and intimate over time. This expectation is perhaps most apparent in romantically involved couples who through a variety of verbal and symbolic means make explicit pledges to a long lasting relationship. In either case it is clear that these relationships represent something valuable to the individuals involved and are pursued with great enthusiasm. Virtually all close relationships are formed within the context of mutually rewarding interactions and or strong physical attraction between partners. Friends and romantically involved couples alike are drawn to one another because of similarity of attitudes interests and personality and quite simply because they enjoy one another's company. This enjoyment coupled with the novelty that characterizes new relationships almost makes the continuation of the relationship a foregone conclusion. As relationships progress however their novelty fades conflicts may arise between partners negative life events may occur and the satisfaction that previously characterized the relationships may diminish.

Dual-career Marriage Lisa R. Silberstein, 2014-01-14 Dual career marriage in which wife and husband each pursue a professional career offers a window into the changing landscape of gender roles and relations. In the span of a single generation the family in which both parents work outside the home has gone from being the exception to being the rule. This book examines the multi layered implications this impressive rapid change holds for the fabric of family and marital life and for the course of men's and women's work lives. Intensive interviews with dual career wives and husbands provide rich information about four major issues. In what ways and for whom do dual career marriages replicate the traditional gender arrangements of one career marriages and in what ways do dual career marriages represent a revolution in gender roles? How do the two careers of

spouses develop side by side and in what ways do dual career spouses help or hinder each other's careers How do work and family combine in dual career marriages How are relationships between spouses and between parents and children affected by dual careers This book presents a subtle textured portrait of contemporary dual career marriage examining the complicated interplay of expectations behaviors and emotions within and between dual career spouses The author observes that the centrality of family or work to each spouse's sense of self powerfully affects how the couple negotiates the challenges posed by dual career marriage including feelings of competition between spouses questions of geographic moves and division of domestic tasks The study illuminates many issues of clinical relevance such as the common hazard of dual career spouses having little time for marital intimacy once the rigorous demands of careers and children are met and the complicated intrapersonal as well as interpersonal tensions generated by gender roles in transition *Japanese Femininities* Justin Charlebois, 2013-08-15 The corporate salaryman and professional housewife stand as hegemonic archetypes of masculinity and femininity in Japan However these rigid gender roles are being challenged by women who are seeking to move beyond the strictly defined confines of their traditional roles as caregivers and homemakers Through interviews with a range of Japanese women this book explores how women's gender roles are both reified and undermined in Japan today and uncovers the prevalent themes or discourses that are utilized to construct gendered identities It shows that while dominant discourses formulate notions of femininity within the domestic sphere these are simultaneously resisted and problematized by contemporary women To this end Justin Charlebois traces the construction of different oppositional femininities such as the single career woman and married working mother which challenge destabilize and potentially reconfigure the traditional gender order This book makes an important contribution to our understanding of gender roles and femininity in Japan and as such will be of great interest to students and scholars of Japanese culture and society gender studies and women's studies

Challenging Fronteras Mary Romero, Pierrette Hondagneu-Sotelo, Vilma Ortiz, 2014-06-11 Challenging Fronteras reflects an important new wave of research that moves beyond sweeping generalizations that treat Latinos as a monolithic cultural group This anthology focuses on the diversity of Latino experiences by providing historical specificity and cutting edge research that employs the conceptual and analytical tools of social science Contributors selected from leading researchers in Latino Studies include Patricia Zavella Suzanne Oboler Alejandro Portes Clara Rodriguez Marta Tienda Nestor Rodriguez and others **Christiantown, USA** Richard Stellway, 2019-03-19 Are Christian families more or less strong than other families How important is sexual satisfaction to marital happiness What impact does the arrival of children have on a marriage How does income affect marital satisfaction What pressures confront employed wives and their families and how content are these women with their marriages To accurately assess the influence of religion on the marriages of churchgoers this book first published in 1990 considers the significance of other important forces as well level of education job satisfaction income sex life patterns of decision making coping strategies and the demands of parenting While most studies have been content to

assess religion's impact by looking at church membership or church attendance this book looks at several facets of religiosity in an effort to understand more clearly just how and when religion affects marriage quality and whether its impact is positive or negative A final concern of the book is to assess how the current generation of couples is adapting to intergenerational changes such as increased occupational status more egalitarian patterns of decision making and smaller families It examines the role modifications and coping strategies that couples are employing to deal with these changes and with the demands that accompany them *Routledge Library Editions: Sociology of Religion* Various, 2021-07-14 This set collects together in 19 volumes a wealth of texts on Sociology of Religion An invaluable reference resource it contains classic books on a wide range of topics including religion and violence religion and family life religion and society culture and class **Equal Partners - Good Friends** Claire Rabin, 2002-09-11 Marriage as an equal partnership is the goal of many couples in the western world today and yet equality is often limited by the ways that power and gender interact in the relationship leading to dissatisfaction and ultimately the break up of the marriage In *Equal Partners Good Friends* Claire Rabin examines the connection between inequality in marriage and marital distress Drawing on extensive research and personal interviews in the UK USA and Israel she stresses the role of friendship in establishing a truly equal relationship Focusing on issues of gender sex roles and power she provides a new clinical treatment model for therapists working with couples which is much needed in today's climate of change *Handbook of Marriage and the Family* Suzanne K. Steinmetz, Marvin B. Sussman, 2013-11-11 The lucid straightforward Preface of this Handbook by the two editors and the comprehensive perspectives offered in the Introduction by one of them leave little for a Foreword to add It is therefore limited to two relevant but not intrinsically related points vis a vis research on marriage and the family in the interval since the first Handbook Christensen 1964 appeared namely the impact on this research of the politicization of the New Right and of the Feminist Enlightenment beginning in the mid sixties about the time of the first Handbook In the late 1930s Willard Waller noted Fifty years or more ago about 1890 most people had the greatest respect for the institution called the family and wished to learn nothing whatever about it Everything that concerned the life of men and women and their children was shrouded from the light Today much of that has been changed Gone is the concealment of the way in which life begins gone the irrational sanctity of the home The aura of sentiment which once protected the family from discussion clings to it no more We want to learn as much about it as we can and to understand it as thoroughly as possible for there is a rising recognition in America that vast numbers of its families are sick from internal frustrations and from external buffeting We are engaged in the process of reconstructing our family institutions through criticism and discussion 1938 pp 3 4 *Who Supports the Family?* Jean L. Potuchek, 1997 In a dual earner marriage why is a wife's paid employment much less likely to be defined as breadwinning than her husband's This book uses data from a study of 153 dual earner couples to examine the allocation of responsibility for breadwinning and the social construction of gender in their marriages The author carefully distinguishes breadwinning from

paid employment and uses the insights of gender construction theory to illuminate that distinction Gender construction theory sees gender as a system of social relations that is continually and actively created in the social interactions of daily life Using both quantitative and qualitative analyses this book demonstrates that despite the prevalence of dual earner marriages breadwinning is still widely used as a boundary that creates gender by distinguishing the meaning of men s employment from that of women s The author argues that though the extent to which breadwinning is used as a gender boundary is strongly influenced by adult experiences and circumstances and by the material conditions of couples lives it is not determined by these factors Rather the meanings attached to husbands and wives employment are actively constructed through a process of negotiation that is characterized by both contention and cooperation Moreover this is a highly dynamic process the breadwinning boundary is renegotiated and reconstructed in response to disagreement to changing circumstances and to shifts in other related gender boundaries Through its detailed analysis of breadwinning and its development of gender boundaries as a theoretical concept this book provides new insight into gender relations and makes a contribution to gender construction theory At the same time it is engagingly written and provides moving glimpses of the real life dilemmas of dual earner couples

Alone Together Paul R. Amato, Alan Booth, David R. Johnson, Stacy J. Rogers, 2009-06-30 Based on two studies of marital quality in America twenty years apart Alone Together shows that while the divorce rate has leveled off spouses are spending less time together The authors argue that marriage is an adaptable institution and in accommodating the changes that have occurred in society it has become a less cohesive yet less confining arrangement

The Future of Marriage Jessie Bernard, 1982-01-01 Dr Bernard examines recent research findings on the present nature of the marriage commitment and predicts a less restrictive role for women in future marriages
