Arkansas!** Robert Cochran,Suzanne McCray,2015-04-15 Lights Camera Arkansas traces the roles played by Arkansans in the first century of Hollywood s film industry from the first cowboy star Broncho Billy Anderson to Mary Steenburgen Billy Bob Thornton and many others The Arkansas landscape also plays a starring role North Little Rock s cameo in Gone with the Wind Crittenden County as a setting for Hallelujah 1929 and various locations in the

state's southeastern quadrant in 2012's *Mud* are all given fascinating exploration. Robert Cochran and Suzanne McCray screened close to two hundred films from laughable box office bombs to laudable examples of filmmaking in their research for this book. They've enhanced their spirited chronological narrative with an appendix on documentary films, a ratings section, and illustrations chosen by Jo Ellen Maack of the Old State House Museum where *Lights Camera Arkansas* debuted as an exhibit curated by the authors in 2013. The result is a book sure to entertain and inform those interested in Arkansas and the movies for years to come.

**The Encyclopedia of Best Films** Jay Robert Nash, 2019-10-23 This all-inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three to five star entries: three stars good, four stars excellent, five stars masterpiece, and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre (i.e. animated, drama, sports, mystery, adventure, etc.) as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

A Brief Guide To The Hunger Games Brian J. Robb, 2014-08-21 A comprehensive and compelling guide to Suzanne Collins's bestselling young adult dystopian trilogy *The Hunger Games*. *Catching Fire* and *Mockingjay* Already a publishing phenomenon to rival *Harry Potter*, over 50 million copies sold, the four blockbuster movies starring Jennifer Lawrence have grossed almost 3 billion dollars at the box office. Suzanne Collins has created a series of characters and situations that have struck a chord not only with the target audience of teenagers but which have also drawn in adult readers; the series is second only to *Harry Potter* in NPR's popular poll of the Top 100 Teen Novels. Robb explores themes in *The Hunger Games* and the influences and inspirations that lie behind the books, highlighting where Suzanne Collins has drawn on mythology and history, reshaping them to fit her universe. He examines the characters and situations created in the book and how these have impacted on the books' largely teen readership. He also looks at reactions to the books from fans and critics, both acclaim and criticisms faced by the author. Robb chronicles the adaptation of *The Hunger Games* from acclaimed best-selling novel to blockbusting film. With a script by Suzanne Collins herself, the film has made stars of Jennifer Lawrence as Collins' heroine Katniss Everdeen, Josh Hutcherson as Peeta Mellark, and Liam Hemsworth as Gale Hawthorne.

Clockwork Worlds Richard D. Erlich, Thomas P. Dunn, 1983-12-28 Taken to extremes, social organization, however necessary in itself, leads to the creation of what editors Erlich and Dunn label *Clockwork Worlds*. This anthology has been organized to define and expand that

concept for the reader Arthur O Lewis provides a comprehensive overview of clockwork worlds and sets them in their political and literary contexts Following Lewis introduction are two series of essays which show how the theme of mechanized environments has been developed in classic works of dystopian fiction and how it has been treated by some of the major contemporary science fiction writers The Special Topics section studies mechanized environments from a variety of viewpoints The editors have included an extensive list of stories novels films background readings and other works useful for the study of mechanized environments
