Historians and Historical Societies in the Public Life of Imperial Russia Vera Kaplan, 2017-02-27 What was the role of historians and historical societies in the public life of imperial Russia Focusing on the Society of Zealots of Russian Historical Education 1895 1918 Vera Kaplan analyzes the network of voluntary associations that existed in imperial Russia showing how they interacted with state public and private bodies Unlike most Russian voluntary associations of the late imperial period the Zealots were conservative in their view of the world Yet like other history associations the group conceived their educational mission broadly engaging academic and amateur historians supporting free public libraries and widely disseminating the historical narrative embraced by the Society through periodicals The Zealots were champions of voluntary association and admitted members without regard to social status occupation or gender Kaplan's study affirms the existence of a more substantial civil society in late imperial Russia and one that could endorse a modernist program without an oppositional liberal agenda

Russia in the Early Modern World Donald Ostrowski, 2022-01-25 A fundamental problem in

studying early modern Russian history is determining Russia's historical development in relationship to the rest of the world. The focus throughout this book is on the continuity of Russian policies during the early modern period 1450-1800 and that those policies coincided with those of other successful contemporary Eurasian polities. The continuities occurred in the midst of constant change but neither one nor the other continuities or changes alone can account for Russia's success. Instead, Russian rulers from Ivan III to Catherine II with their hub advisors managed to sustain a balance between the two. During the early modern period these Russian rulers invited into the country foreign experts to facilitate the transfer of technology and know-how, mostly from Europe but also from Asia. In this respect they were willing to look abroad for solutions to domestic problems. Russia looked westward for military weaponry and techniques at the same time it was expanding eastward into the Eurasian heartland. The ruling elite and by extension the entire ruling class worked in cooperation with the ruler to implement policies. The Church played an active role in supporting the government and in seeking to eliminate opposition to the government.

Regime and Society in Twentieth-Century Russia Ian D. Thatcher, 2016-07-27 This book contains fresh approaches to the interaction between regime and society in twentieth-century Russia. It offers new answers to familiar questions: How useful is totalitarianism as a model to categorise authoritarian regimes? What chances existed for tsarism to establish itself as a constitutional monarchy? Were Trotsky and Lenin dictators in waiting? How did the Bolsheviks make the Lenin cult? What opposition did intellectuals offer in the Soviet regime? What is the nature of contemporary Russian constitutionalism? It is required reading for historians, political scientists, sociologists and everyone interested in modern Russia.

Russia in the Age of Reaction and Reform 1801-1881 David Saunders, 2014-07-30 This eagerly awaited study of Russia under Alexander I, Nicholas I and Alexander II, the Russia of War and Peace and Anna Karenina brings the series near to completion. David Saunders examines Russia's failure to adapt to the era of reform and democracy ushered into the rest of Europe by the French Revolution. Why, despite so much effort, did it fail?
