Seeing The Invisible In Late Antiquity And The Early Middle Ages:

Seeing the Invisible in Late Antiquity and the Early Middle Ages Giselle de Nie, Karl Frederick Morrison, Marco Mostert, 2005 Limiting itself to the vital centuries when the late Roman West reshaped itself into a first Europe the conference explored the dominant conception of human nature in that era that human existence was both body in the visible world of material things and soul in the invisible world of spirit This was a legacy of pre Christian elements handed down from Greek philosophy and Hebrew Scriptures Assimilating it to indigenous cultures in the Roman West many alien to the ancient Mediterranean world precipitated sea changes in the understanding of human psychology Ensuing frictions sparked extraordinary expressions of creativity in words and visual images It also created dangerously subversive disequilibriums in the collective mentality within elites and between them and majority cultures The papers in this volume investigate numerous configurations of a new culture taking shape in that volatile environment They contribute to continuing debates about the cognitive co ordination of words and pictorial images and to cross disciplinary dialogues in such disparate fields as art history religious literature mysticism and cultural anthropology

The Corporeal Imagination Patricia Cox

Miller, 2012-02-28 With few exceptions the scholarship on religion in late antiquity has emphasized its tendencies toward transcendence abstraction and spirit at the expense of matter In *The Corporeal Imagination* Patricia Cox Miller argues instead that ancient Christianity took a material turn between the fourth and seventh centuries During this period Miller contends there occurred a major shift in the ways in which the human being was oriented in relation to the divine a shift that reconfigured the relationship between materiality and meaning in a positive direction *The Corporeal Imagination* is a groundbreaking investigation into the theological poetics of material substance in late ancient Christian texts From hagiographies to literary descriptions of sacred paintings to treatises on relics and theurgy Miller examines a wide variety of ancient texts to reveal how Christian writers increasingly described the matter of the world as invested with divine power By appealing to the reader's sensory imagination Christian texts endowed phenomena like relics saints bodies in hagiography and saints presence in icons with a visual and tactile presence The book draws on a variety of contemporary theoretical models to elucidate the significance of all these materials in ancient religious life and imagination

Experience in Late Antiquity and the Middle Ages Giselle de Nie, 2016-05-06 Our imagination reveals our experience of ourselves and our world The late philosopher of science and poetry Gaston Bachelard introduced the notion that each image that comes to mind spontaneously is a visual representation of the cognitive and affective pattern that is moving us at the time often unconsciously When such a mental image inspires a picture or text it evokes in the mind of the reader or beholder a replication of the internal pattern that originally inspired the artist or writer Thus mental images are rarely empty phantasies Whereas intellectual concepts are conscious constructions of abstracted relations mental images evoked by texts and pictures often point like dreams to pre verbal experience that patterns itself through multiplying associations and

analogies These mental images can also manifest their own limits pointing indirectly to experiences beyond what can be expressed and communicated The six essays in this volume seek to uncover the dynamic patterns in verbal and pictorial images and to evaluate their potentialities and limitations Thematically ordered according to their specific focus the essays begin with material images and move on to increasing degrees of immateriality The subjects treated are verbal descriptions of an icon and of a statue imaginative visions and auditions evoked by material depictions verbal imagery describing imagined sculptures and scenes as compared with drawings of a moving historical pageant drawings of symbolic figures representing subtle relationships between verbal expositions that cannot be syntactically represented dream images that precipitate actual healing and aural patterns in a sounded text that are experienced as images of affective dynamisms

Once Out of Nature Andrea Nightingale, 2011-06-01 Once Out of Nature offers an original interpretation of Augustine's theory of time and embodiment Andrea Nightingale draws on philosophy sociology literary theory and social history to analyze Augustine's conception of temporality eternity and the human and transhuman condition In Nightingale's view the notion of embodiment illuminates a set of problems much larger than the body itself it captures the human experience of being an embodied soul dwelling on earth In Augustine's writings humans live both in and out of nature exiled from Eden and punished by mortality they are resident aliens on earth While the human body is subject to earthly time the human mind is governed by what Nightingale calls psychic time For the human psyche always stretches away from the present moment where the physical body persists into memories and expectations As Nightingale explains while the body is present in the here and now the psyche cannot experience self presence Thus for Augustine the human being dwells in two distinct time zones in earthly time and in psychic time The human self then is a moving target Adam Eve and the resurrected saints by contrast live outside of time and nature these transhumans dwell in an everlasting present Nightingale connects Augustine's views to contemporary debates about transhumans and suggests that Augustine's thought reflects our own ambivalent relationship with our bodies and the earth Once Out of Nature offers a compelling invitation to ponder the boundaries of the human

Death and Rebirth in Late Antiquity Lee M. Jefferson, 2022-08-16 Death and rebirth was of vital importance to early Christians in late antiquity In late antiquity death was all encompassing Mortality rates were high plague and disease in urban areas struck at will and one lived on the knife's edge regarding one's health Religion filled a crucial role in this environment offering an option for those who sought cure and comfort Following death the inhumed were memorialized providing solace to family members through sculpture painting and epigraphy This book offers a sustained interdisciplinary treatment of death and rebirth a theme that early Christians and scholars found important By analysing the theme of death and rebirth through various lenses the contributors deepen our understanding of the early Christian funerary and liturgical practices as well as their engagement with other groups in the Empire

The Beginnings of the Cult of Relics Robert Wiśniewski, 2019 Christians have often admired and venerated the martyrs who died for their faith but for a long time thought that the bodies of martyrs should remain undisturbed in their graves Initially the Christian attitude towards the bones of the dead saint or not was that of respectful distance The Beginnings of the Cult of Relics examines how this attitude changed in the mid fourth century Robert Wiśniewski investigates how Christians began to believe in the power of relics first over demons then over physical diseases and enemies He considers how the faithful sought to reveal hidden knowledge at the tombs of saints and why they buried the dead close to them An essential element of this new belief was a strong conviction that the power of relics was transferred in a physical way and so the following chapters study relics as material objects Wiśniewski analyses how contact with relics operated and how close it was Did people touch kiss or look at the very bones or just at tombs and reliquaries which contained them When did the custom of dividing relics begin Finally the book deals with discussions and polemics concerning relics and attempts to find out the strength of the opposition which this new phenomenon had to face both within and outside Christianity on its way to become an essential element of medieval religiosity

Rome and Religion in the Medieval World Valerie L. Garver, Owen M. Phelan, 2016-04-08 Rome and Religion in the Medieval World provides a panoramic and interdisciplinary exploration of Rome and religious culture The studies build upon or engage Thomas F X Noble's interest in Rome especially his landmark contributions to the origins of the Papal States and early medieval image controversies Scholars from a variety of disciplines offer new viewpoints on key issues and questions relating to medieval religious cultural and intellectual history Each study explores different dimensions of Rome and religion including medieval art theology material culture politics education law and religious practice Drawing upon a wide range of sources including manuscripts relics historical and normative texts theological tracts and poetry the authors illuminate the complexities of medieval Christianity especially as practiced in the city of Rome itself and elsewhere in Europe when influenced by the idea of Rome Some trace early medieval legacies to the early modern period when Protestant and Catholic theologians used early medieval religious texts to define and debate forms of Roman Christianity The essays highlight and deepen scholarly appreciation of

Rome in the rich and varied religious culture of the medieval world Building the Body of Christ Daniel C. Cochran,2020-11-17 In *Building the Body of Christ* Daniel C Cochran argues that monumental Christian art and architecture played a crucial role in the formation of individual and communal identities in late antique Italy The ecclesiastical buildings and artistic programs that emerged during the fourth and fifth centuries not only reflected Christianity s changing status within the Roman Empire but also actively shaped those who used them Emphasizing the importance of materiality and the body in early Christian thought and practice Cochran shows how bishops and their supporters employed the visual arts to present a Christian identity rooted in the sacred past but expressed in the present through church unity and episcopal authority He weaves together archaeological and textual evidence to contextualize case studies from Rome Aquileia and Ravenna showing how these sites responded to the diversity of early Christianity as expressed through private rituals and the imperial appropriation of the saints Cochran shows how these early ecclesiastical buildings and artistic programs worked in conjunction with the liturgy to persuade individuals to adopt alternative beliefs practices and values that contributed to the formation of institutional Christianity and the Christianization of late antique Italy *Sanctity and Female Authorship* Maria H. Oen,Unn Falkeid,2019-10-10 Birgitta of Sweden Birgitta Birgersdotter 1302 03 1373 and her younger contemporary Catherine of Siena Caterina Benincasa 1347 1380 form the most powerful and influential female duo in European history Both enjoyed saintly reputations in life while acting as the charismatic leaders of a considerable group of followers consisting of clergy as well as mighty secular men and women They are also among the very few women of the Trecento to leave a substantial body of written work which was widely disseminated in their original languages and in translations Copies of Birgitta s *Liber celestis revelacionum* The Heavenly Book of Revelations and compilations of Catherine s letters *Le lettere prayers* *Le orazioni* and her theological work *Il Dialogo della divina Provvidenza* The Dialogue found their way into monastic royal and humanist libraries all over Europe After their deaths Birgitta s and Catherine s respective groups of supporters sought to have them formally canonized In both cases however their political and theological outspokenness orally and in text and their public authority represented obstacles In this comparative study leading scholars from different disciplinary backgrounds offer for the very first time a comprehensive exploration of the lives and activities of Birgitta and Catherine in tandem Particular attention is given to their literary works and the complex process of negotiating their sanctity and authorial roles Above all what the chapters reveal is the many points of connections between two of the most influential women of the Trecento and how they were related to one another by their peers and successors **A Saving Science** Eric M. Ramírez-Weaver,2017-02-24 In *A Saving Science* Eric Ram rez Weaver explores the significance of early medieval astronomy in the Frankish empire using as his lens an astronomical masterpiece the deluxe manuscript of the *Handbook of 809* painted in roughly 830 for Bishop Drogo of Metz one of Charlemagne s sons Created in an age in which careful study of the heavens served a liturgical purpose to reckon Christian feast days and seasons accurately and thus reflect a heavenly

order the diagrams of celestial bodies in the Handbook of 809 are extraordinary signifiers of the intersection of Christian art and classical astronomy Ram rez Weaver shows how by studying this lavishly painted and carefully executed manuscript we gain a unique understanding of early medieval astronomy and its cultural significance In a time when the Frankish church sought to renew society through education the Handbook of 809 presented a model in which study aided the spiritual reform of the cleric s soul and by extension enabled the spiritual care of his community An exciting new interpretation of Frankish painting A Saving Science shows that constellations in books such as Drogo s were not simple copies for posterity s sake but functional tools in the service of the rejuvenation of a creative Carolingian culture **Alcuin** Douglas Dales,2012-11-29

Scholar ecclesiastic teacher and poet of the eighth century Alcuin was a person of deep Christian faith tenacious in his loyalty to orthodox Catholic theology He had a seminal influence upon his own generation and those that came after him Although he remained a Northumbrian Christian at heart the part of his life about which most is known was spent on the Continent He never lost contact with his homeland but his most significant and lasting work was evidently accomplished in Europe and his influence on the early medieval Western Church was an abiding one This book examines his life and career in England and on the continent it also considers his legacy as a churchman and a leading political figure This volume prefigures a forthcoming work on Alcuin s intellectual legacy Alcuin A Study of his Theology due for release April 2013 This rich study is intended for the general reader as well as for those studying teaching or researching this period of early medieval history and theology in schools and universities **"Gender, Piety, and Production in Fourteenth-Century**

Relics and Writing in Late Medieval England Robyn Malo, 2013-12-06 *Relics and Writing in Late Medieval England* uncovers a wide ranging medieval discourse that had an expansive influence on English literary traditions Drawing from Latin and vernacular hagiography miracle stories relic lists and architectural history this study demonstrates that as the shrines of England's major saints underwent dramatic changes from c 1100 to c 1538 relic discourse became important not only in constructing the meaning of objects that were often hidden but also for canonical authors like Chaucer and Malory in exploring the function of metaphor and of dissembling language Robyn Malo argues that relic discourse was employed in order to critique mainstream religious practice explore the consequences of rhetorical dissimulation and consider the effect on the socially disadvantaged of lavish expenditure on shrines The work thus uses the literary study of relics to address issues of clerical and lay cultures orthodoxy and heterodoxy and writing and reform
