

MARY WOLLSTONECRAFT.

In 1792 there was published a book which aroused a storm of protest from a scandalised public—Mary Wollstonecraft's "Vindication of the Rights of Woman." It is difficult for women of the present day—freed from so many of the restrictions which hampered their sisters of former generations—to appreciate the high courage of the writer who thus boldly broached rebellious ideas and proclaimed a doctrine entirely contrary to the spirit of an age which, whilst beginning dimly to realise that *women* had claims as human beings, yet sought to keep womanhood in a state of permanent subjection.

Born in Hoxton in 1759 Mary Wollstonecraft's girlhood was passed amidst scenes of domestic tragedy. Her father—a spendthrift and hard drinker—was a man of ungovernable temper, who not only ruined the family fortunes, but cruelly ill-treated the mother, whom Mary loved with all the strength of a passionate nature, and of whom she became the self-constituted protector. The commonly-accepted *métier* of the unmarried woman of the period—"sitting round the family hearth and petting papa"—had no charms for her. Even had such a life been possible, she early realised that it would be necessary, not only to be self-supporting, but to contribute towards the support of her family, and to this end had taken full advantage of such poor facilities for study as were afforded her. The chief occupations then open to the single woman having no male relative upon whom to depend were those of companion and governess; and Mary Wollstonecraft, from the age of nineteen to twenty-eight, was engaged in these uncongenial pursuits, at the same time being harassed by continual appeals for assistance from her two sisters and younger brothers.

The experience gained in

of obloquy and scorn. That "this hyena in petticoats," "this philosophising serpent" (as Horace Walpole designated her) should be guilty of such an indelicacy as to write at all was bad enough, but that she should use her pen to attack the very foundations upon which the sacred superiority of man had, throughout generations, been painfully built up was an unforgivable offence, and that the writer should prove the sincerity of her convictions by putting into practice the theories she so enthusiastically advocated was to place herself entirely outside the pale of society.

Judged from a literary standpoint, the book is disappointing; its stilted diction, Johnsonian periods, and bombastic style are grotesque and displeasing to modern ideas. Still more noticeable is its lack of continuity of thought and expression. Despite these blemishes, however, it stands apart as a trenchant analysis of the position

of women in the eighteenth century, based upon bitter personal experience. The author, braving scorn and derision, pushed the question of woman's rights to its farthest limits, and boldly claimed for women as well as men social, economic, and political freedom. Realising that the progress of the race, ethically and socially, must come through the young, she emphasises the great need for change in the prevailing educational methods, and inveighs against the custom of confining girls to their needle and shutting them out from all political and civil employments.

Far in advance of her time, she outlines a system of co-education under which boys and girls, side by side, should, in addition to the three R's, study mechanics, botany, and the sciences, particularly stating that these studies should not be allowed to encroach upon the time set apart for gym-
