

WHAT IS CULTURE?

Culture refers to a set of patterns of human activity within a community or social group and the symbolic structures that give significance to such activity.

Customs, laws, dress, architectural style, social standards and traditions are all examples of cultural elements.

Some cultures do not exist anymore, such as *the Aztec or the Roman*. Nowadays, some of the most popular cultures are *the Chinese and the Muslim*.

The chapters in Part 1 focus on the NSM approach and cover four themes: lexico-grammatical semantics, cultural keywords, semantics of nouns and emotion. In Part 2 the contributors connect with a meaning-based approach from their own intellectual perspectives including syntax, anthropology, cognitive linguistics and sociolinguistics. The deep humanistic perspective, wide-ranging themes and interdisciplinary nature of Wierzbicka's research are reflected in the contributions. Cultural Visions: Essays in the History of Culture, 2022-03-07. This collection opens with an inquiry into the assumptions and methods of the historical study of culture, comparing the new cultural history with the old. Thirteen essays follow, each defining a problem within a particular culture. In the first section, Biography and Autobiography, three scholars explore historically changing types of self-conception, each reflecting larger cultural meanings. Essays included examine Italian Renaissance biographers and the autobiographies of Benjamin Franklin and Mohandas Gandhi. A second group of contributors explore problems raised by the writing of history itself, especially as it relates to a notion of culture. Here examples are drawn from the writings of Thucydides, Jacob Burckhardt and the art historians Alois Riegl and Josef Strzygowski. In the third section, Politics, Nationalism and Culture, the essays explore relationships between cultural creativity and national identity, with case studies focusing on the Holy Roman Emperor Maximilian I, the place of Castile within the national history of Spain and the impact of World War I on the work of Thomas Mann. The final section, Cultural Translation, raises the complex questions of cultural influence and the transmission of traditions over time through studies of Philo of Alexandria's interpretation of the Hebrew Bible, Erasmus' use of Socrates, Jean Bodin's conception of Roman law and adaptations of the Hebrew Bible for American children.
