My Twentieth Century:

My Twentieth Century David Kirby, 1999 *My Twentieth Century Evening and Other Small Breakthroughs* Kazuo Ishiguro, 2017-12-12 The Nobel Lecture in Literature delivered by Kazuo Ishiguro *The Remains of the Day* and *When We Were Orphans* at the Swedish Academy in Stockholm Sweden on December 7 2017 in an elegant clothbound edition In their announcement of the 2017 Nobel Prize in Literature the Swedish Academy recognized the emotional force of Kazuo Ishiguro's fiction and his mastery at uncovering our illusory sense of connection with the world In the eloquent and candid lecture he delivered upon accepting the award Ishiguro reflects on the way he was shaped by his upbringing and on the turning points in his career small scruffy moments quiet private sparks of revelation that made him the writer he is today With the same generous humanity that has graced his novels Ishiguro here looks beyond himself to the world that new generations of writers are taking on and what it will mean what it will demand of us to make certain that literature remains not just alive but essential An enduring work on writing and becoming a writer by one of the most accomplished novelists of our generation

Screening Modernism András Bálint Kovács, 2007 Casting fresh light on the renowned productions of auteurs like Antonioni Fellini and Bresson and drawing out from the shadows a range of important but lesser known works *Screening Modernism* is the first comprehensive study of European art cinema's postwar heyday Spanning from the 1950s to the 1970s András Bálint Kovács's encyclopedic work argues that cinematic modernism was not a unified movement with a handful of styles and themes but rather a stunning range of variations on the core principles of modern art Illustrating how the concepts of modernism and the avant garde variously manifest themselves in film Kovács begins by tracing the emergence of art cinema as a historical category He then explains the main formal characteristics of modern styles and forms as well as their intellectual foundation Finally drawing on modernist theory and philosophy along the way he provides an innovative history of the evolution of modern European art

cinema Exploring not only modernism's origins but also its stylistic thematic and cultural avatars Screening Modernism ultimately lays out creative new ways to think about the historical periods that comprise this golden age of film

Authenticities Peter Kivy, 1995 How are we to assess the current popularity of period instruments and early music performance For musicians and audiences alike the historical authenticity movement has increasingly influenced the performance of classical music It has given us claims Peter Kivy new and rewarding ways of listening to our musical repertory as well as silly vulgar and unrewarding ones He believes that theory now overrules the ear in arguing for and justifying particular aesthetic decisions In his customary engaging style Kivy here mounts a philosophical inquiry into the desirability of using or re-creating historical performance Authenticity has become so widely accepted he writes that why it should be accepted has become an unasked indeed a forgotten question among the converted In How to Be Authentic the first section of his book he examines four different kinds of authenticity in the second part Why to Be Authentic he suggests how to evaluate them Discussing issues that he cares about passionately Kivy provides ammunition for both camps those who follow authentic performance practice and those who do not It is his hope that this book provides the groundwork for dialogue between musicians and philosophers I look forward to that he says and to being when it comes in the thick of things

Twentieth Century's Greatest Hits Paul Williams, 2000 Rates the best of the twentieth century's art and pop culture while accompanying essays provide commentary on the way art and performance influences the public and modern world

Bishop, 2022-08-09 Joshua Kampa the illegitimate son of a mute Spanish whore and a black serviceman has always dreamed of Africa But his dreams are of an Africa far in the past and are so vivid and in such hallucinatory detail that he is able to question the understanding of eminent paleontologists As a result Joshua is invited to join a most unusual time travel project and is transported millions of years into the past of his dreams In early Pleistocene Africa living among the pre-human species Homo habilis experiencing the same hardships and the same intense pleasures Joshua finds for the first time in his troubled life not only contentment but real love a love that transcends almost everything Intelligent thoughtful and deeply moving No Enemy but Time brilliantly evokes the remote past and at the same time presents a powerful and convincing portrayal of a relationship surmounting even the most daunting barriers It is a challenging and highly original novel exploring the nature and origins of humankind **The Work of Literature in an Age of Post-Truth** Christopher

Schaberg,2018-07-26 A 2019 Prose Award Finalist What is the role of literary studies in an age of Twitter threads and viral news If the study of literature today is not just about turning to classic texts with age old questions neither is it a rejection of close reading or critical inquiry Through the lived experience of a humanities professor in a rapidly changing world this book explores how the careful study of literature and culture may be precisely what we need to navigate our dizzying epoch of post truth politics and ecological urgency

The Body of the Artisan Pamela H. Smith,2024-05-31 Since the time of Aristotle the making of knowledge and the making of objects have generally been considered separate enterprises Yet during the late sixteenth and early seventeenth centuries the two became linked through a new philosophy known as science In The Body of the Artisan Pamela H Smith demonstrates how much early modern science owed to an unlikely source artists and artisans From goldsmiths to locksmiths and from carpenters to painters artists and artisans were much sought after by the new scientists for their intimate hands on knowledge of natural

materials and the ability to manipulate them Drawing on a fascinating array of new evidence from northern Europe including artisans objects and their writings Smith shows how artisans saw all knowledge as rooted in matter and nature With nearly two hundred images The Body of the Artisan provides astonishingly vivid examples of this Renaissance synergy among art craft and science and recovers a forgotten episode of the Scientific Revolution an episode that forever altered the way we see the natural world

Reflections Monica Schuster,2022-05-04 Kat and Rhina two straight women instantly fall in love leaving them with a desire to know how this could happen Their quest takes them on a journey through the past lives in which their souls had previously joined together They find that there is a very good reason for them to feel the way they do toward each other The characters they find in the past are entwined deeply with their present ones Rhina has had experience with this other world but Kat is shaken to the core on all levels In fact her transformation is the true crux of the story Rhina follows her own trail of discovery but Kat without deterrent seeks what she s never known She must use the knowledge of her own soul s past to help her find who she truly is in her present one This is a story of love discovery and trust with a whole mess of otherworldly palpable intangible matter thrown in Their journey crosses all boundaries in this world and others yet their love is only the lovely vessel in which the real story of courage and triumph unfold
