The Gunning of America Pamela Haag,2016-04-19 Americans have always loved guns This special bond was forged during the American Revolution and sanctified by the Second Amendment It is because of this exceptional relationship that American civilians are more heavily armed than the citizens of any other nation Or so we re told In The Gunning of America historian Pamela Haag overturns this conventional wisdom American gun culture she argues developed not because the gun was exceptional but precisely because it was not guns proliferated in America because throughout most of the nation s history they were perceived as an unexceptional commodity no different than buttons or typewriters Focusing on the history of the Winchester Repeating Arms Company one of the most iconic arms manufacturers in America Haag challenges many basic assumptions of how and when America became a gun culture Under the leadership of Oliver Winchester and his heirs the company used aggressive sometimes ingenious sales and marketing techniques to create new markets for their product Guns have never sold themselves rather through advertising and innovative distribution campaigns the gun industry did Through the meticulous examination of gun industry archives Haag challenges the myth of a primal bond between Americans and their firearms Over the course of its 150 year history the Winchester Repeating Arms Company sold over 8 million guns But Oliver Winchester a shirtmaker in his previous career had no apparent qualms about a life spent arming America His daughter in law Sarah Winchester was a different story Legend holds that Sarah was haunted by what she considered a vast blood fortune and became convinced that the ghosts of rifle victims were haunting her She channeled much of her inheritance and her conflicted conscience into a monstrous estate now known as the Winchester Mystery House where she sought refuge from this ever expanding army of phantoms In this provocative and deeply researched work of narrative history Haag fundamentally revises the history of arms in America and in so doing explodes the cliché that have created and sustained our lethal gun culture

Captive of the Labyrinth Mary Jo Ignoffo,2022-08-01 Captive of the Labyrinth is reissued here to commemorate the 100th anniversary of the death of rifle heiress Sarah L Winchester in 1922 After inheriting a vast fortune upon the death of her husband in 1881 Winchester purchased a simple farmhouse in San Jos California She built additions to the house and continued construction for the next twenty years When neighbors and the local press could not imagine her motivations they invented fanciful ones of their own She was accused of being a ghost obsessed spiritualist and to this day it is largely believed that the extensive construction she executed on her San Jos house was done to thwart death and appease the spirits of those killed by the Winchester rifle

Author and historian Mary Jo Ignoffo's definitive biography unearths the truth about this reclusive eccentric revealing that she was not a maddened spiritualist driven by remorse but an intelligent articulate woman who sought to protect her private life amidst the chaos of her public existence and the social mores of the time The author takes readers through Winchester's several homes explores her private life and by excerpting from personal correspondence one learns the widow's true priority was not dissipating her fortune on the mansion in San Jose but endowing a hospital to eradicate a dread disease Sarah Winchester has been exploited for profit for over a century but *Captive of the Labyrinth* finally puts to rest the myths about this American heiress and in the process uncovers her true legacies
