The Heart of His Mystery John Waterfield, 2009-10-21 Shakespeare has traditionally been viewed as Queen Elizabeth's poet laureate and as the official mouthpiece of the Elizabethan age But the Elizabethan world was torn apart by the religious divisions initiated by the Reformation and vitiated by the government's merciless persecution of Catholics As it was the victors who wrote the history the English Reformation has been portrayed as a peaceful transition enjoying majority support when in fact it was nothing of the kind Elizabeth's regime was a police state which sanctioned the use of torture where Catholic priests and those who harboured them were liable to summary and bloody execution The persecution of Catholics was continued by James I evoking the violent response of the Gunpowder Plot *The Heart of His Mystery* examines Shakespeare's life and work against this background There is strong biographical evidence that he was himself a Catholic and a detailed survey of his plays and poems shows that his imagination was intimately bound up with his religious faith When we realise that his human compassion grew from his membership in a persecuted community we can glimpse the mystery he has encrypted in his works and we come closer to understanding the hidden heart of Shakespeare the man

Magicians of the Gods Graham Hancock, 2015-11-10 Graham Hancock's multi million bestseller *Fingerprints of the Gods* remains an astonishing deeply controversial wide ranging investigation of the mysteries of our past and the evidence for Earth's lost civilization Twenty years on Hancock returns with the sequel to his seminal work filled with completely new

scientific and archaeological evidence which has only recently come to light Near the end of the last Ice Age 12 800 years ago a giant comet that had entered the solar system from deep space thousands of years earlier broke into multiple fragments Some of these struck the Earth causing a global cataclysm on a scale unseen since the extinction of the dinosaurs At least eight of the fragments hit the North American ice cap while further fragments hit the northern European ice cap The impacts from comet fragments a mile wide approaching at more than 60 000 miles an hour generated huge amounts of heat which instantly liquidized millions of square kilometers of ice destabilizing the Earth s crust and causing the global Deluge that is remembered in myths all around the world A second series of impacts equally devastating causing further cataclysmic flooding occurred 11 600 years ago the exact date that Plato gives for the destruction and submergence of Atlantis The evidence revealed in this book shows beyond reasonable doubt that an advanced civilization that flourished during the Ice Age was destroyed in the global cataclysms between 12 800 and 11 600 years ago But there were survivors known to later cultures by names such as the Sages the Magicians the Shining Ones and the Mystery Teachers of Heaven They travelled the world in their great ships doing all in their power to keep the spark of civilization burning They settled at key locations Gobekli Tepe in Turkey Baalbek in the Lebanon Giza in Egypt ancient Sumer Mexico Peru and across the Pacific where a huge pyramid has recently been discovered in Indonesia Everywhere they went these Magicians of the Gods brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price A memory and a warning to the future For the comet that wrought such destruction between 12 800 and 11 600 years may not be done with us yet Astronomers believe that a 20 mile wide dark fragment of the original giant comet remains hidden within its debris stream and threatens the Earth An astronomical message encoded at Gobekli Tepe and in the Sphinx and the pyramids of Egypt warns that the Great Return will occur in our time

Secret Cities of Old South America Harold T. Wilkins,2008-11-01 Monstrous beasts lost worlds vanished civilizations Amazon warriors

even Atlantis and Noah's ark figure in this wondrous and rare book. Hard to find in print before now, this obscure 1952 work is an artifact itself of the postwar fascination with all things mysterious, from flying saucers to ancient astronauts to the third eye. In this wildly entertaining and more than a little bit preposterous document, Wilkins takes us from mountain jungles to unexplored swamps on a search for the hidden secrets of old South America. Seekers after the arcane and fans of the paranormal will delight in this odd and extraordinary volume.

British journalist and historian HAROLD T. WILKINS (1891-1960) is also the author of *Mysteries of Ancient South America* (1945) and *Mysteries of Time and Space* (1958).
