Mystic Americanism Grace K. Morey, R. Swinburne Clymer, 1975-12-01 **Mystic Americanism** Reuben Swinburne Clymer, 1975 *Mystic Americanism* Grace Kincaid Morey, 1924 **Lost Symbols?** David Ovason, 2011-02-28 The secrets the myths and the facts behind Washington D C s design and its Masonic significance In this groundbreaking original work David Ovason reveals the intimate connections between the mysterious zodiacal symbols and the stellar lore of Washington D C and the secret plan for the city There are over fifty complete zodiacs in Washington D C all witness to an extraordinary stellar mystery Why did generations of architects and artists put their lives and energies on the line when designing this City of the Stars What was their shared secret language What or who drove them to create a city overflowing with such esoteric symbolism What is the meaning behind the secret symbolism of Washington D C s layout And what does it mean for America s future *Founding Fathers, Secret Societies* Robert Hieronimus, 2005-12-28 An exploration of the influence of secret societies on the formative documents and symbols of the United States Reveals the Founding Fathers spiritual vision for America as encoded in the Great Seal Traces the influence of the Iroquois League of Nations upon the Constitution Exposes the deep connections the Founding Fathers had with the Freemasons and other secret societies All children growing up in America learn who the Founding Fathers were Most however never learn of the founders connections to the Freemasons the Rosicrucians and other esoteric orders In *Founding Fathers Secret Societies* Robert Hieronimus investigates these important connections and how their influence can be traced throughout our most significant national documents and symbols especially the Great Seal He reveals in detail how the reverse of the Great Seal which appears on the back of the one dollar bill is a blueprint that conveys the secret destiny of America By understanding the kabbalistic meaning of the Great Seal s reverse he shows how our current era presents unique opportunities for the fulfillment of our Founding Fathers spiritual vision *Modernist Writings and Religio-scientific Discourse* L. Vetter, 2010-04-26 Addresses the early twentieth century intersection of scientific and religious discourse exploring literary modernism through the lens of cultural history focusing on the works of H D Mina Loy and Jean Toomer It covers a range of topics such as electromagnetism and sexuality dance and theories of spiritual evolution *The United States Catalog*, 1925 **Flag Burning** Michael Welch (Ph. D.), Responses to flag burning as a particular form of street protest tend to polarize into two camps one holding the view that action of this sort is constitutionally protected protest the other that it is subversive and criminal activity In this well researched and richly documented volume Welch examines the collision of these ideologies and shows the relevance of sociological concepts to a deeper understanding of such forms of protest In exploring social control of political protest in the United States this volume embarks on an in depth examination of flag desecration and efforts to criminalize that particular form of dissent It seeks to examine the sociological process facilitating the criminalization of protest by attending to moral enterprises civil religion authoritarian aesthetics and the ironic nature of social control Flag burning is a potent symbolic gesture conveying sharp

criticism of the state Many American believe that flag desecration emerged initially during the Vietnam War era but the history of this caustic form of protest can be traced to the period leading up to the Civil War The act of torching Old Glory differs qualitatively from other forms of defiance With this distinction in mind attempts to penalize and deter flag desecration transcend the utilitarian function of regulating public protest Despite popular claims that American society is built on genuine consensus the flag burning controversy brings to light the contentious nature of U S democracy and its ambivalence toward free expression The First Amendment of the U S Constitution is often viewed as one of the more unpopular additions to the Bill of Rights One constitutional commentator underscores this point by noting that the First Amendment gives citizens the right to tell people what they do not want to hear Flag Burning is a well written informative volume suitable for courses in deviance social problems social movements mass communication criminology and political science as well as in sociology of law and legal studies **New York** ,1928 *The Publishers Weekly* ,1924
