Mystic Union:

Mystic Union Nelson Pike, 1992 What is it to experience union with God In this highly original and accessible book one of our leading philosophers of religion seeks to answer this question by analyzing the several states of mystic union as they are described and explained in the classical primary literature of the Christian mystical tradition **Mystical Union in Judaism, Christianity, and Islam** Moshe Idel, Bernard McGinn, 2016-10-06 Mystics who have spoken of their union with God have come under suspicion in all three major religious traditions sometimes to the point of condemnation and execution in the case of Christianity and Islam Nevertheless in all three religions the tradition of unio mystica is deep and long Many of the spiritual giants of these three faiths have seen the attainment of mystical union as the heart of their beliefs and practices Despite its importance mystical union has rarely been investigated in itself apart from the wider study of mysticism and even more rarely from the aspect of comparative studies especially those based upon broad and expert knowledge of the inner life of the three related monotheistic faiths This text brings together essays that equally explore the broader idea of unio mystica as well as the mystic traditions within each religion **"And They Shall Be One Flesh": On The Language of Mystical Union in Judaism** Adam Afterman, 2016-08-29 In And They Shall Be One Flesh On the Language of Mystical Union in Judaism Adam Afterman offers an extensive study of mystical union and embodiment in Judaism Afterman argues that Philo was the first to articulate the notion of unio mystica in Judaism and is the source of the henosis mysticism in the later Neoplatonic tradition The study provides a detailed analysis of the Jewish medieval trends that developed different forms of mystical union and mystical embodiment through the divine name and spirit The book argues that the development of unitive mysticism in Judaism is the fruit of the creative synthesis of rabbinic Judaism and Hellenistic and Arab philosophy and a natural outcome of the theological articulation of the idea of monotheism itself **The Graces of Interior Prayer (Des Grâces D'oraison)** Augustin Poulain, 1921 **Difference Dissolved** Spencer Perdriau, 2014-08-15 You don't need to be a prophet holy man saint or messiah to attain Mystic Union If Unity were not attainable by ordinary man then none of us would have the ability to realize The Eternal Spiritual Mystical Unity is open and available to all regardless of belief or religious preference This is the self realized universal ideal of contemporary mystic Spencer Perdriau In a world that has become so focused on distinction and difference what we need now is collective not personal experience and realization of the underlying Essence that pervades and unifies us all equally That Essence is everywhere and ever present It is the foundation of everything and is the same for us all We may appear separate and different at the surface of life but our essence and foundation is the same and connects us all We are all made of the same stuff of reality and we all exist within the same ocean of reality no matter how different we take it If we all had a glimpse of our essential foundation Our Ultimate Identity that collective realization would create far more peace and equality in our world which so desperately yearns for that remembering and restoration of Unity This little book is devoted to sharing and inspiring all who have a deep yearning and

passion for That In the realization of our Greater Self prejudice and difference dissolves and in that awareness and understanding of our Greater Unity compassion peace and equality has room to flourish once more The Graces of Interior Prayer Augustin Poulain,1912 **The Model of Love** Vincent Brümmer,1993-09-16 Religious believers understand the meaning of their lives and of the world in terms of the way these are related to God The conceptual models whereby this relationship is described therefore play a key role in the conceptual designs which theologians produce to express the faith of the community of believers Vincent Brümmer examines the implications of using the model of love in this context and looks at a number of the most significant views of the nature of love exclusive attention Ortega y Gasset ecstatic union nuptial mysticism passionate suffering courtly love need love Plato Augustine and gift love Nygren All these views are shown to interpret love as an attitude rather than as a relation between persons In the final chapters a relational concept of love is developed and it is shown how all the various attitudes discussed in the previous chapters have a role to play Finally the implications are addressed of using the model of love as a key model in theology *The Modern Predicament* Paton, H J,2014-04-04 First published in 2002 Routledge is an imprint of Taylor Francis an informa company **Library of Congress Subject Headings** Library of Congress,1998 **Library of Congress Subject Headings** Library of Congress.
