Mysticism After Modernity:

Mysticism After Modernity Don Cupitt, 1997-12-08 In *Mysticism After Modernity* Don Cupitt argues that the extensive modern literature about mysticism has rested upon a mistake the belief that there can be meaningful experience prior to language

Mysticism After Modernity Don Cupitt, 1998

Mystics After Modernism Rudolf Steiner, 2000 The mystics Steiner writes about in this book were early giants in the modern art of illumined self knowledge Their ways of seeing the world God and themselves foreshadowed all that we practice now in the best of meditation both East and West Here you can read about their essential passion for unity their practice of intensification of perception and their ever fresh insights into the process of knowing itself Contents Foreword by Christopher Bamford Preface to the 1923 Edition Introduction Mystics Natural Science and the Modern World by Rudolf Steiner Meister Eckhart The Friendship with God Johannes Tauler Cardinal Nicolas of Cusa Agrippa of Nettesheim Theophrastus Paracelsus Valentin Weigel Jacob Boehme Giordano Bruno Angelus Silesius Epilogue Afterword About the Author the People and the Background of This Book by Paul M Allen Preface to First Edition 1901 Steiner immerses us in the evolving stream of these eleven mystics who appeared in central Europe between the thirteenth and seventeenth centuries They managed to resolve the conflict between inner perceptions and the new seeds of modern science and human individuality Based on the lives of those mystics and on his own spiritual insight Steiner shows how their ideas can illuminate and preserve our true human nature today Rudolf Steiner ends his book with a quotation from the Cherubic Wanderer a collection of sayings gathered by Angelus Silesius Dear Friend this is enough for now If you wish to read more go and become the writing and the essence yourself A previous edition was titled *Mysticism at the dawn of the Modern Age*

Mysticism as Modernity William Morris Crooke, William Crooke, 2008 This work reconsiders the connections between mysticism nationalism and modernity in twentieth century German cultures Disengaging mysticism from occultism the author creates a new space for reconsidering mysticism s links to larger structures of modernity already at play at the turn of the century Rather than dismissing mysticism as a strain of anti modern irrationalism with troubling links to radical politics such as Nazism the author reconceptualizes modern mysticism as an unwittingly logical expression of the same compression of time and space created by the emergence of the newspaper radio railways and telegraph and reflected in the novels of Hermann Hesse Robert Musil and Max Frisch

Transcending Boundaries in Philosophy and Theology Kevin Vanhoozer, Martin Warner, 2016-02-24 Presenting new opportunities in the dialogue between philosophy and theology this interdisciplinary text addresses the contemporary reshaping of intellectual boundaries Exploring human experience in a post Christian era the distinguished contributors bring to bear what have been traditionally seen as theological resources while drawing on contemporary developments in philosophy both continental and analytic Set in the context of two complementary narratives one philosophical concerning secularity the other theological about the question of God the authors point to ways of reconfiguring both traditional reason faith oppositions and those between interpretation

text and language experience Contributors David Brown Philip Clayton Chris Firestone Grace Jantzen Nicholas Lash George Pattison Dan Stiver Charles Taylor Kevin Vanhoozer Graham Ward Martin Warner **The Predicament of Postmodern**

Theology Gavin Hyman, 2001-01-01 Gavin Hyman explores in depth two antithetical schools of postmodern theology the radical orthodoxy of John Milbank and the nihilist textualism of Don Cupitt Hyman critiques Milbank's influential project from a postmodern perspective and then points out the major difficulties with Cupitt's approach Finally he explores the work of Mark C Taylor and Michael de Certeau to articulate a third way that leads beyond the responses of both Cupitt and Milbank

The Mystic Way in Postmodernity Sue Yore, 2009 This book challenges experiential esoteric and colloquial understandings of mysticism by bringing a fresh relevance to the term through an interdisciplinary dialogue between literature mysticism and theology in the context of postmodernity In order to achieve this the author takes selected writings of Iris Murdoch Denise Levertov and Annie Dillard and incorporates them into various stages of a redesigned mystic way The fourteenth century mystic Julian of Norwich is invoked throughout as a role model whom these three writers seek to emulate as popular writers contemplatives and theologians As theologians who are concerned with the pressing issues of our age Grace Jantzen Dorothee Soelle and Sallie McFague are drawn on as conversation partners to complete the three way discussion The author maintains that understanding the writing and reading of creative texts in the context of practical mysticism facilitates an integrated approach to the use of literature for theological expression Mystic Modernity Ashim Dutta, 2021-12-05 This is a transnational and bilingual investigation of the cross fertilisation of mystical religiosity and modern poetical imagination in the works of the Bengali poet Rabindranath Tagore and the Irish poet W B Yeats The book demonstrates how their commitments to transnational mysticism deeply form and inform the modernist literary projects of these poets as well as their understanding of cultural modernity Although its primary interest lies in their poetry and poetics the monograph also includes some of their relevant prose works This study begins with a close look at and around the phase of 1912 1913 when Yeats and Tagore met over the collection of the latter's English translations of his spiritual verses Gitanjali and took mutual interests in each other's works and cultural significances The monograph then expands on both sides of that phase selectively covering the whole career of the poets in its exploration of their parallel mystic modern cultural poetical projects *Psychedelic Mysticism* Morgan Shipley, 2015-11-12 Concerned with scholarly popular and religious backdrops that understand the connection between psychedelics and mystical experiences to be devoid of moral concerns and ethical dimensions a position supported empirically by the rise of acid fascism and psychedelic cults by the late 1960s *Psychedelic Mysticism Transforming Consciousness Religious Experiences and Voluntary Peasants in Postwar America* traces the development of sixties psychedelic mysticism from the deconditioned mind and perennial philosophy of Aldous Huxley to the sacramental ethics of Timothy Leary Richard Alpert and Ralph Metzner to the altruistic religiosity practiced by Stephen Gaskin and The Farm Building directly off the pioneering psychedelic writing of Huxley these psychedelic mystics

understood the height of psychedelic consciousness as an existential awareness of unitive oneness a position that offered worldly alternatives to the maladies associated with the postwar moment e g vapid consumerism and materialism lifeless conformity unremitting racism heightened militarism In opening a doorway to a common world Morgan Shipley locates how psychedelics challenged the coherency of Western modernity by fundamentally reorienting postwar society away from neoliberal ideologies and toward a sacred understanding of reality defined by mutual coexistence and responsible interdependence In 1960s America psychedelics catalyzed a religious awakening defined by compassion expressed through altruism and actualized in projects that sought to ameliorate the conditions of the least advantaged among us In the exact moments that historians and cultural critics often locate as signaling the death knell of the counterculture Gaskin and The Farm emerged not as a response to the perceived failures of the hippies nor as an alternative to sixties politics but in an effort to fulfill the religious obligation to help teach the world how to live more harmoniously Today as we continue to confront issues of socioeconomic inequality entrenched differences widespread violence and the limits of religious pluralism Psychedelic Mysticism serves as a timely reminder of how religion in America can operate as a tool for destabilization and as a means to actively reimagine the very basis of how people relate such a legacy can aid in our own efforts to build a more peaceful sustainable and compassionate world

Mysticism and Meaning: Multidisciplinary Perspectives Alex S.

Kohav, 2019 The volume investigates the question of meaning of mystical phenomena and conversely queries the concept of meaning itself via insights afforded by mystical experiences The collection brings together researchers from such disparate fields as philosophy psychology history of religion cognitive poetics and semiotics in an effort to ascertain the question of mysticism s meaning through pertinent up to date multidisciplinary The discussion commences with Editor s Introduction that probes persistent questions of complexity as well as perplexity of mysticism and the reasons why problematizing mysticism leads to even greater enigmas One thread within the volume provides the contextual framework for continuing fascination of mysticism that includes a consideration of several historical traditions as well as personal accounts of mystical experiences Two contributions showcase ancient Egyptian and ancient Israelite involvements with mystical alterations of consciousness and Christianity s origins being steeped in mystical praxis and four essays highlight mysticism s formative presence in Chinese traditions and Tibetan Buddhism as well as medieval Judaism and Kabbalah mysticism A second more overarching strand within the volume is concerned with multidisciplinary investigations of the phenomenon of mysticism including philosophical psychological cognitive and semiotic analyses To this effect the volume explores the question of philosophy s relation to mysticism and vice versa together with a Wittgensteinian nexus between mysticism facticity and truth language mysticism and supernormal meaning engendered by certain mystical states cognitive poetic analysis of mystical poetry and a semiotic scrutiny of some mystical experiences and their ineffability Finally the volume includes an assessment of the so called New Age authors contention of the convergence of scientific and mystical claims about reality

The above two tracks are appended with personal contemporary accounts of mystical experiences in the Prologue and a futuristic envisioning as a fictitious chronicle from the time to come of life without things mystical in the Postscript The volume contains fourteen chapters its international contributors are based in Canada Israel United Kingdom and the United States
