Myth Of Inevitable U S Defeat In Vietnam:

The Myth of Inevitable US Defeat in Vietnam C. Dale Walton, 2002 Dale Walton's book offers a unique and comprehensive analysis that considers US strategic decisionmaking at a number of levels and shows how US errors created the military and political conditions that made North Vietnamese victory possible. If the United States political military effort had not negated its main advantages indeed even if it had avoided only a small number of its many strategic errors the outcome of the Indochina conflict would most likely have been very different the author argues. **BOOK JACKET** The Vietnam War Re-Examined Michael Kort, 2018 An overview of the revisionist case on the Vietnam War showing how it could have been won by the US at a lower cost than was suffered in defeat. **The Powell Doctrine and US Foreign Policy**

Luke Middup, 2016-03-03 The Vietnam War is one of the longest and most controversial in US history. This book seeks to explore what lessons the US military took from that conflict as to how and when it was appropriate for the United States to use the enormous military force at its disposal and how these lessons have come to influence and shape US foreign policy in subsequent decades. In particular this book will focus on the evolution of the so called Powell Doctrine and the intellectual climate that led to it. The book will do this by examining a series of case studies from the mid 1970s to the present war in Afghanistan. A Handbook of Military Strategy and Tactics Michiko Phifer, 2012-07-13 The book discusses the importance of Military Strategy and Tactics during conflicts with some proven examples.

Winning at War Christian P Potholm, 2023-06-14 What are the independent variables that determine success in war? Drawing on 40 years of studying and teaching war political scientist Christian P Potholm presents a template of Mars seven variables that have served as predictors of military success over time and across cultures. In *Winning at War* Potholm explains these variables: technology, sustained ruthlessness, discipline, receptivity to innovation, protection of military capital from civilians, and rulers' will and the belief that there will always be another war, and provides case studies of their implementation from ancient battles to today.

The Father of All Things Tom Bissell, 2007 The author describes his journey to Vietnam with his war veteran father, offering a glimpse of a land that had shaped both of their lives while reflecting on his father's war experience and the war's continuing political, cultural, and personal influence. U.S. Foreign Policy in Perspective David Sylvan, Stephen Majeski, 2009-02-05 What is the long term nature of American foreign policy? This new book refutes the claim that it has varied considerably across time and space, arguing that key policies have been remarkably stable over the last hundred years, not in terms of ends but of means. Closely examining US foreign policy past and present, David Sylvan and Stephen Majeski draw on a wealth of historical and contemporary cases to show how the US has had a client state empire for at least a century. They clearly illustrate how much of American policy revolves around acquiring clients, maintaining clients, and engaging in hostile policies against enemies deemed to threaten them, representing a peculiarly American form of imperialism. They also reveal how clientilism informs apparently disparate activities in different geographical regions and

operates via a specific range of policy instruments showing predictable variation in the use of these instruments With a broad range of cases from US policy in the Caribbean and Central America after the Spanish American War to the origins of the Marshall Plan and NATO to economic bailouts and covert operations and to military interventions in South Vietnam Kosovo and Iraq this important book will be of great interest to students and researchers of US foreign policy security studies history and international relations This book has a dedicated website at www.usforeignpolicy.org featuring additional case studies and data sets Supplement to Vietnam 1964-1973 ,2005 **Supplement to Vietnam 1964-1973** Elwood L.
