**The Myth of Two Minds** Beryl Lieff Benderly, 1987 Studie over de vraag welke psychologische of sociale en culturele factoren ten grondslag liggen aan de man vrouwverdeling in de maatschappij **Christian Perspectives on Sexuality and Gender** Elizabeth Stuart, Adrian Thatcher, 1996 This collection of articles present a variety of broadly Christian responses to issues such as sexuality and gender sexuality and spirituality gay and lesbian sexuality sexuality and violence sexuality and singleness and the family **Women: The Misunderstood Majority** M. Gay Hubbard, 2003-05-12 Fact Women are the major consumers of counseling services today Fact The average counselor male or female secular or pastoral has little or no specific training in the psychology of women or in understanding women s issues Result A widespread therapy gap that reduces respect hinders healing and breeds frustration M Gay Hubbard writes to close that disturbing gap by exposing common misbeliefs and faulty assumptions about women that can block understanding and perpetuate pain Her aim in this provocative yet balanced book is to Increase women s self understanding and make them smarter consumers of counseling services Challenge the myths of womanhood old and new that pervade our culture and can skew the thinking of counselor and client alike Expose faulty assumptions about women and therapy that may sabotage a counselor s best efforts and even increase the risk of sexual abuse Examine the politics of gender research and show why data about sex differences is often manipulated and misinterpreted to further particular agendas Encourage women and their counselors to look at the business of healing with fresh hope deeper understanding and an abiding sense of compassion Impeccably researched highly readable challenging but never strident Women The Misunderstood Majority is designed to open eyes and heal hearts and to open the way for more women to lead productive and fulfilling lives [The Case Against Women Raising Children](#) Kathleen A. Ryan Carlsson, 2002-03-08 For information about the book go to [www.GroenendaalPress.com](http://www.GroenendaalPress.com) Evolution and culture produce a body and mind to suit a creatures role in the world Whether care of the young is provided by males females or both each species has evolved caregiver traits suited to that task The result is caring women and provider men In other words you are what you do However with the honing of each trait a creature pays a price In the case of a woman who specialized her body and mind to childcare the price was a failure to develop skill at financial self sufficiency and individual direction which in turn made it more likely that such a woman will live in a subordinate relationship Women as primary parents perpetuated gender roles Women internalized this definition of themselves and they became somewhat comfortable with it Even when they wanted more power over their lives they found themselves trapped from within But human beings have also evolved the trait of educability We can learn We can choose the direction in which we develop our abilities and traits The case against women raising children is the case for parents raising children **War and Gender** Joshua S. Goldstein, 2003-07-17 Gender roles are nowhere more prominent than in war Yet contentious debates and the scattering of scholarship across academic disciplines have obscured understanding of how gender affects war and vice versa In this authoritative and lively review of

our state of knowledge Joshua Goldstein assesses the possible explanations for the near total exclusion of women from combat forces through history and across cultures Topics covered include the history of women who did fight and fought well the complex role of testosterone in men's social behaviours and the construction of masculinity and femininity in the shadow of war Goldstein concludes that killing in war does not come naturally for either gender and that gender norms often shape men women and children to the needs of the war system Illustrated with photographs drawings and graphics and drawing from scholarship spanning six academic disciplines this book provides a unique study of a fascinating issue
