Mythical Times:

Times of Security Martin Holbraad, Morten Axel Pedersen, 2013-06-07 In the current world disorder security is on everyone's lips. But what is security from a cross-cultural perspective? How is it imagined and experienced by people on the ground? Crucially, what visions of the future are at stake in people's potentially divergent concerns with security? What and when is the time of security? Exploring diverse notions and experiences of time involved in security practices across the globe, this volume brings together a selection of international scholars who conduct ethnographic research in a broad ambit of securitized contexts: from the experience of Palestinian detainees in Israel or forms of popular violence in Bolivia to efforts to normalize social relations in post-conflict Yugoslavia and ways of imagining threat in left radical protest movements in Northern Europe. Interrogating recent debates about the role of securitization in contemporary politics, the book paves the way for novel forms of security analysis at the crossroads between anthropology and political science, focusing on the comparative study of the temporalities of securitization in a multi-polar world. Offering a pioneering synthesis, the book will be of interest not only to anthropologists but also to students and scholars in political science and the growing field of Security Studies in International Relations.

Language Myths and the History of English Richard J. Watts, 2011-03-03 *Language Myths and the History of English* deconstructs common myths about the historical development of English and looks at the ideological reasons for their existence.

History and Memory Jacques Le Goff, 1992 In this brilliant meditation on conceptions of history, Le Goff traces the evolution of the historian's craft. Examining real and imagined oppositions between past and present, ancient and modern, oral and written history, *History and Memory* reveals the strands of continuity that have characterized historiography from ancient Mesopotamia to modern Europe.

A History of Greece William Smith, 1854

The Authoritative Historian K. Scarlett Kingsley, Giustina Monti, Tim Rood, 2023-01-26 In this volume, an international group of scholars revisits the themes of John Marincola's ground-breaking *Authority and Tradition in Ancient Historiography*. The nineteen chapters offer a series of case studies that explore how ancient historians' approaches to their projects were informed both by the pull of tradition and by the ambition to innovate. The key themes explored are the relation of historiography to myth and poetry; the narrative authority exemplified by Herodotus, the father of history; the use of fictional literary devices in historiography; narratorial self-presentation and self-conscious attempts to shape the historiographical tradition in new and bold ways. The volume presents a holistic vision of the development of Greco-Roman historiography and the historian's dynamic position within this practice.
