Of Two Minds:

Of Two Minds Carol Matas, Perry Nodelman, 1995 Follows the adventures of two royal teenagers who possess extraordinary mental powers Being of Two Minds Pamela Service, 1991 A fascinating fantasy from the author of *The Reluctant God* and *Tomorrow's Magic* Connie Hendricks an almost typical American 14 year old and Rudolph the 14 year old crown prince of a small kingdom enter each other's minds when they are temporarily unconscious And when Rudolph is kidnapped while Connie is a guest in his mind she must convince others that Rudolph's life as well as the fate of his kingdom is in danger **Of Two Minds** RDx Kaushik, 2024-02-16 *Of Two Minds* Navigating 100 Oxymoronic Crossroads takes readers on a profound journey through the complexities of life's choices exploring the paradoxes inherent in decision making The book contrasts two fundamental approaches people pleasing and setting healthy boundaries It delves into the characteristics consequences and benefits of each inviting readers to reflect on their own choices and interpersonal dynamics The narrative unfolds in an imaginative landscape where the protagonists confront a century of decisions marked by oxymorons Themes of simplicity and complexity clarity and ambiguity and other paradoxes are woven into the fabric of the storytelling The exploration is guided by the principle of assertive empathy encouraging a balance between accommodating others and prioritizing one's well being Throughout the book readers encounter fictional titles in the bibliography that add an extra layer of creativity reinforcing the thematic exploration of decision making in a paradoxical world *Decisions in Duality* serves not only as an engaging exploration of human behavior but also as an invitation to embrace the contradictions that shape our lives and relationships The narrative encourages readers to find meaning in the dance between easy and hard choices and to navigate the complexities of their own crossroads with thoughtful introspection and assertive empathy Of Two Minds Sylvia Madrigal, 2005 Emily Diaz has spent her whole life in two worlds As a child of Mexican parents in South Texas she maneuvered the terrain of two cultures two economic classes and two languages At Yale the discovery that she is in love with a woman sends her into a vortex of self doubt that fragments her worlds even further In Boston she must face the divide between her outward heterosexual world and her internal emotional desires Finally she must risk destroying her relationship with her devoutly Mexican mother by telling the truth about who she is **Of Two Minds** T.M. Luhrmann, 2001-08-14 With sharp and soulful insight T M Luhrmann examines the world of psychiatry a profession which today is facing some of its greatest challenges from within and without as it continues to offer hope to many At a time when mood altering drugs have revolutionized the treatment of the mentally ill and HMO's are forcing caregivers to take the pharmacological route over the talking cure Luhrmann places us at the heart of the matter and allows us to see exactly what is at stake Based on extensive interviews with patients and doctors as well as investigative fieldwork in residence programs private psychiatric hospitals and state hospitals Luhrmann's groundbreaking book shows us how psychiatrists develop and how the enormous ambiguities in the field affect its practitioners and patients Being of Two Minds Arnold I.

Goldberg, 2013-06-17 From the unfaithful husband to the binge eater from the secret cross dresser to the pilferer of worthless items there are those who seem to live two lives to be divided selves to be literally of two minds This division or vertical split appears in a person at odds with himself a person who puzzles over and even heartily dislikes that parallel person who behaves in so repugnant a manner In *Being of Two Minds* Arnold Goldberg provides trenchant insight into such divided minds their origins their appearances and their treatment Goldberg's inquiry into divided minds leads to a return to the psychoanalytic concept of disavowal which forms the basis of the vertical split Goldberg explores the developmental circumstances that tend to a reliance on disavowal provides numerous examples of the emergence of disavowal in the treatment situation and considers the therapeutic approaches through which disavowal may be addressed He is especially perceptive in discussing the manner in which the therapist's own tendency to disavow may collusively interact with that of the patient Goldberg considers the full range of splits to which disavowal gives rise from circumscribed instances of dissociation to the much debated multiple personality disorders He gives special attention to the role of the vertical split in patients with behavior disorders here his thoughtful insights point to a treatment approach that significantly differs both from the simple ascription of a self disorder and from the usual pedagogical emphasis on issues of self control and or punishment As Goldberg shows the repugnance felt by many therapists for offensive behaviors emanating from the patient's parallel self are frequently shared by the patient who commonly despises misbehavior that he is unable to understand *Being of Two Minds* begins to formulate just such understanding to the great benefit of patient and therapist alike

A Poetry of Two Minds Sherod Santos, 2000 In his long awaited first book of prose poet and essayist Sherod Santos takes a compelling look into some of poetry's deepest secrets an investigation that leads him to the surprising conclusion that poems have minds of their own minds often inaccessible even to the one who composed them In these essays Santos explores not only what he thinks about poetry but also what and how poetry thinks about itself His writings range across the history of Western poetry from formative classical myths to modern experimental forms and touch on subjects as diverse as the rhetorical history of cannibalism the political and cultural uses of translation and the current state of American poetry Along the way he calls on past poets like Ovid Baudelaire and Phyllis Wheatley on twentieth century poets like Wallace Stevens H D and Rainer Maria Rilke and on writers and thinkers like Montaigne Walter Benjamin Simone Weil and Paul de Man These essays explore facets of poetry known best to one who has practiced the art for years From the methods of poetic attention to the processes by which perception is transformed into language and from the illusive relationship between poetry and meaning to the integral relationship between poetry and memory this collection delves into what it means to be a poet and how being a poet is intimately tied to one's social and cultural moment With Santos's trademark flair for seeking out the overlooked and unforeseeable *A Poetry of Two Minds* is an extraordinary collection that testifies to its author's far reaching intellectual curiosity Readers who have delighted in his insights over the years can now have the satisfaction of having them caught

between the covers of this provocative book **Being of Two Minds** Jonathan Goldberg,2022-09-20 Being of Two Minds examines the place that early modern literature held in Modernist literary criticism For T S Eliot Virginia Woolf and William Empson the early modern period helps model a literary future At stake in their engagements across time were ontological questions about literature and its ability to mediate between the one and the many the particular and the general life and death the past and the present If reading and writing literature enables the mind to be in two places at once creative experience serves as a way to participate in an expanded field of consciousness alongside mortality Goldberg reads the readings that these modernists performed on texts that Eliot claimed for the canon like the metaphysical poets and Jacobean dramatists but also Shakespeare Milton Montaigne and Margaret Cavendish Ontological concerns are reflected in Eliot s engagement with Aristotle s theory of the soul and Empson s Buddhism These arguments about being affect minds and bodies and call into question sexual normativity Eliot glances at a sodomitical male male mode of literary transmission Woolf produces a Judith Shakespeare to model androgynous being Empson refuses to distinguish activity from passivity to rewrite gender difference The work of one of our leading literary and cultural critics Being of Two Minds spans centuries to show how the most compelling and surprising ideas about mind experience and existence not only move between early modernity high modernism and our own moment but are also constituted through that very movement between times and minds

Becoming of Two Minds about Liberalism Dwight R. Boyd,2015-12-22 Integrating scholarly essays and personal reflections Becoming of Two Minds chronicles a unique philosophical odyssey a developmental journey of coming to recognize the inadequacy of liberalism in the face of some egregious social problems such as racism while also appreciating its strengths A Personal Prologue describing the main intellectual influences on the author locates the origins of the journey and functions as a backdrop for its interpretation Fifteen chronologically organized essays divided into three parts identify significant positions of contrast between the two minds establishing the direction of the journey and indications of change Essays in Part I reflect early allegiance to liberalism and explore its core ideas as they should be interpreted to guide moral education Those in Part II express disaffection with that allegiance taking a distinctly critical stance toward liberalism Part III then consists of essays that represent attempts to come to terms with the becoming of two minds exemplified in the tension between the ideas about liberalism expressed in Parts I and II A Personal Preface also introduces each of the fifteen essays These Prefaces address questions such as why the problem of the essay was chosen why it was approached in a particular way and what place the essay assumes in the direction the author s journey takes Two Minds Roger S. Frantz,2005 The Two Minds noted economist Roger Frantz explores in this landmark book are first the analytical mind and second the intuitive mind In part one he presents the leading theories on intuition discusses recent developments in cognitive science and borrows from such non economist intuitors as Albert Einstein Jonas Salk Henri Poincare Ludwig von Beethoven and Robert Louis Stevenson to explore the role of intuition in science and creativity In part two Frantz considers the

presumably analytic and logical nature of economics and then demonstrates the many ways in which economists from Adam Smith to Herbert Simon have relied on intuition as a fruitful mental activity This book provides a rich complement and alternative perspective to some of the theoretical and mathematical models that have dominated the dismal science since the late 1940s

Of Two Minds T.M. Luhrmann, 2011-04-06 In this groundbreaking book Tanya Luhrmann among the most admired of young American anthropologists brings her acute intelligence and her sophisticated powers of observation to bear on the world of psychiatry On the basis of extensive interviews with patients and doctors as well as day to day investigative fieldwork in residency programs private psychiatric hospitals and state hospitals Luhrmann shows us how psychiatrists are trained how they develop their particular way of seeing and listening to their patients what makes a psychiatrist successful and how the enormous ambiguities in the field affect its practitioners and patients How do psychiatrists learn to do what they do What is it like for psychiatrists to deal with people who are in emotional extremity How does the choice between drug therapy and talk therapy each of which requires

very different skills affect the way psychiatrists understand their patients Boldly and with sharp insight Luhrmann takes the reader into the world of young doctors in training At a time when mood altering drugs have revolutionized the treatment of the mentally ill and HMOs are forcing caregivers to take the pharmacological route Luhrmann places us at the heart of the struggle do we treat people s brains or their minds and allows us to see exactly what is at stake **Merlyn's Mind** Richard H. [A History of the Corruptions of Christianity](#) Joseph Priestley,1838 **Embodied Selves and Divided Minds** Michelle Maiese,2016 Embodied Selves and Divided Minds examines how research in embodied cognition and enactivism can contribute to our understanding of the nature of self consciousness the metaphysics of personal identity and the disruptions to self awareness that occur in case of psychopathology It begins with the assumption that if we take embodiment seriously then the resulting conception of the self as physically grounded in the living body can help us to make sense of how a minded subject persists across time However rather than relying solely on puzzle cases to discuss diachronic persistence and the sense of self this work looks to schizophrenia and dissociative identity disorder as case studies Here we find real life examples of anomalous phenomena that signify disruptions to embodied self experience and appear to indicate a fragmentation of the self However rather than concluding that these disorders count as genuine instances of multiplicity the book s discussion of the self and personal identity allows us to understand the characteristic symptoms of these disorders as significant disruptions to self consciousness The concluding chapter then examines the implications of this theoretical framework for the clinical treatment of schizophrenia and dissociative identity disorder Embodied Selves and Divided Minds reveals how a critical dialogue between Philosophy and Psychiatry can lead to a better understanding of important issues surrounding self consciousness personal identity and psychopathology

The Case Against Christianity Michael Martin,1991 In this systematic philosophical critique of the major tenets of Christianity Michael Martin examines the semantic and epistemological bases of religious claims and beliefs Beginning with a comparison and evaluation of the Apostles Creed the Niceno Chalcedonian Creed and the Athanasian Creed Martin discusses the principal theological historical and eschatological assumptions of Christianity These include the historicity of Jesus the Incarnation the Second Coming the Virgin Birth the Resurrection Salvation through faith in Jesus and Jesus as a model of ethical behavior Until now an adequately convincing criticism of Christianity did not exist Martin s use of historical evidence textual analysis and interpretations by philosophers and theologians provides the strongest case made to date against the rational justification of Christian doctrines
