The Boy's Own Paper, 1882 Gleason's Pictorial Drawing-room Companion Maturia Murray Ballou, 1857 *Unmasking Masculinity (Routledge Revivals)* David Jackson, 2015-08-11 In this detailed investigation of masculine gendered identity first published in 1990 David Jackson uses his own personal history to look at the specific ways in which men become masculine In doing so he examines but also offers some positive challenges to the assumed qualities and values of growing up manly Jackson looks closely at the psychological and social forces active in his own development relations with his father violence at school male banter and joking sporting activities boys comics and sexual relations The title is a deliberate blend between life story and critical commentary that makes use of some areas of post structuralist theory to make visible the social and emotional processes that contribute to one man s life history With an innovative theoretical approach this reissue will be of particular value to those interested in the social psychological and cultural forces that have gone into the historical shaping of men and masculinities

Contemporary Perspectives On Masculinity Ken Clatterbaugh, 2018-10-08 What is social reality for men in modern society What maintains or explains this social reality What condition might we imagine that would be better for men How might we achieve this better condition These are the questions Kenneth Clatterbaugh brings to seven different visions of men in modern society considered in this newly updated edition In clear and insightful language Clatterbaugh surveys not just conservative liberal and radical views of masculinity but also the alternatives offered by the men s rights movement spiritual growth advocates and black and gay rights activists Each of these is explored both as a theoretical perspective and as a social movement and each offers distinctive responses to the questions posed The first edition of this book was the first to survey the range of responses to feminism that men have made as well as the first to put political theory at the center of men s awareness of their own masculinity This new edition adds chapters on recent highly publicized movements such as the Promise Keepers Million Man March and the evolution of gay men s rights
