William Henry Bartlett

On The Desert:

On the Desert Henry Martyn Field, 1902 Forty Days in the Desert, on the Track of the Israelites William Henry Bartlett, 1862 **Sufi and Scholar on the Desert Edge** Knut S. Vikør, 1995 Al Sanusi 1787-1859 founded the Sufi brotherhood of the Sanusiya in Cyrenaica Libya which organized the Bedouin of the desert and its littoral for religious piety and trade and development. It grew into one of the most influential Islamic movements in North Africa and the Sahara and later played a key role in resisting French and Italian imperialism. Vikør examines the scholarly tradition in which Al Sanusi was educated as a Sufi teacher and scholar of Islamic Law and its influence on his intentions and methods. Slightly revised from his 1992 thesis for the University of Bergen. Annotation copyright by Book News Inc Portland OR At the Desert's Green Edge Amadeo M. Rea, 1997-11 The Akimel O'odham or Pima Indians of the northern Sonoran Desert continue to make their home along Arizona's Gila River despite the alarming degradation of their habitat that has occurred over the past century. The oldest living Pimas can recall a lush riparian ecosystem and still recite more than two hundred names for plants in their environment but they are the last generation who grew up subsisting on cultivated native crops or wild foraged plants. Ethnobiologist Amadeo M. Rea has written the first complete ethnobotany of the Gila River Pima and has done so from the perspective of the Pimas themselves. *At the Desert's Green Edge* weaves the Pima view of the plants found in their environment with memories of their own history and culture creating a monumental testament to their traditions and way of life. Rea first discusses the Piman people, environment and language then proceeds to share their botanical knowledge in entries for 240 plants that systematically cover information on economic botany, folk taxonomy and linguistics. The entries are organized according to Pima life form categories such as plants growing in water, eaten greens and planted fruit trees. All are anecdotal, conveying the author's long personal involvement with the Pimas, whether teaching in their schools or learning from them in conversations and interviews. *At the Desert's Green Edge* is an archive of otherwise unavailable plant lore that will become a benchmark for botanists and anthropologists. Enhanced by more than one hundred brush paintings of plants, it is written to be equally useful to nonspecialists so that the Pimas themselves can turn to it as a resource regarding their former lifeways. More than an encyclopedia of facts, it is the Pimas' own story, a witness to a changing way of life in the Sonoran Desert. **Hope on the Desert Road** CM Davy, 2022-08-01 Life is hard. Raising children is hard. Raising a medically fragile child seems at times impossible. Thirteen years ago my daughter was born with complex medical needs. As I wandered through this new landscape I realized that there were no resources available for families like ours. In our journey I have realized that we all have journeys. We all have days where there is little hope. We all have challenges and we all need to find God in our journey. That is what this book is about: finding hope, finding faith and finding God in the journey. *Death of the Desert* Christine Luckritz Marquis, 2022-03-22 In the late fourth century the world of Christianity was torn apart by debate over the teachings of the third-century theologian Origen and his positions on the incorporeality of God. In the year 400

Archbishop Theophilus of Alexandria convened a council declaring Origen's later followers as heretics. Shortly thereafter Theophilus banished the so-called Tall Brothers, four Origenist monks who led monastic communities in the western Egyptian desert along with hundreds of their brethren. In some accounts Theophilus leads a violent group of drunken youths and enslaved Ethiopians in sacking and desecrating the monastery; in others he justly exercises his episcopal duties. In some versions Theophilus's violent actions effectively bring the Golden Age of desert monasticism to an end; in others he has shown proper respect for the desert fathers whose life of asceticism is subsequently destroyed by bands of barbarian marauders. For some the desert came to be inextricably connected to violence and trauma, while for others it became a site of nostalgic recollection. Which of these narratives subsequent generations believed depended in good part on the sources they were reading. In *Death of the Desert*, Christine Luckritz Marquis offers a fresh examination of this critical juncture in Christian history and brings into dialogue narrative strands that have largely been separated in the scholarly tradition. She takes the violence perpetrated by Theophilus as a turning point for desert monasticism and considers how monks became involved in acts of violence and how that violence came back to haunt them. More broadly, her careful attention to the dynamic relations between memory practices, the rhetorical constructions of place, racialized discourse, and language and deeds of violence speak to us in our own time.

Design with the Desert Richard Malloy, John Brock, Anthony Floyd, Margaret Livingston, Robert H. Webb, 2013-01-16. The modern southwestern cities of Phoenix, Tucson, Las Vegas, Albuquerque, and El Paso occupy lands that once supported rich desert ecosystems. Typical development activities often resulted in scraping these desert lands of an ancient living landscape to be replaced with one that is human-made and dependent on a large consumption of energy and natural resources. *Design with the Desert: Conservation and Sustainable Development* explores the natural and built environment of the American Southwest and introduces development tools for shaping the future of the region in a more sustainable way. *Explore the Desert Landscape and Ecology*. This transdisciplinary collaboration draws on insights from leading authorities in their fields, spanning science, ecology, planning, landscape development, architecture, and urban design. Organized into five parts, the book begins by introducing the physical aspects of the desert realm: the land, geology, water, and climate. The second part deals with the living and ecological aspects, from plants and animals to ecosystems. The third part on planning in the desert covers the ecological and social issues surrounding water, natural resource planning, and community development. *Bring the Desert into the City*. The fourth part looks at how to bring nature into the built environment through the use of native plants, the creation of habitats for nature in urban settings, and the design of buildings, communities, and projects that create life. The final part of the book focuses on urban sustainability and how to design urban systems that provide a secure future for community development. Topics include water security, sustainable building practices, and bold architecture and community designs. *Design Solutions That Work with the Local Environment*. This book will inspire discussion and contemplation for anyone interested in desert development from

developers and environmentalists to planners community leaders and those who live in desert regions Throughout this volume the contributors present solutions to help promote ecological balance between nature and the built environment in the American Southwest and offer valuable insights for other ecologically fragile regions around the world *One Day in the Desert* Jean Craighead George, 1996-04-12 A wounded mountain lion moves from his mountain habitat to a Papago Indian hut in Arizona s Sonoran desert during a record breaking July day All creation adapts to the blistering heat until a cloudburst causes a flash flood With a measured yet vivid style this introduction to desert ecology makes a memorable impact SLJ
