Bedard (editor), 2011-02-05 In an increasingly skeptical world there is now more of a need than ever for quality apologetic resources defending the Christian faith The purpose of this journal is to bridge the gap between the academy and the church equipping pastors and interested laypeople to present the Christian faith to an unbelieving world **Aufstieg und Niedergang der römischen Welt: Principat.** v Hildegard Temporini, Wolfgang Haase, 1992 *Eusebius and Empire* James Corke-Webster, 2019-01-10 Eusebius Ecclesiastical History written in the early fourth century continues to serve as our primary gateway to a crucial three hundred year period the rise of early Christianity under the Roman Empire In this volume James Corke Webster undertakes the first systematic study considering the History in the light of its fourth century circumstances as well as its author's personal history intellectual commitments and literary abilities He argues that the Ecclesiastical History is not simply an attempt to record the past history of Christianity but a sophisticated mission statement that uses events and individuals from that past to mould a new vision of Christianity tailored to Eusebius fourth century context He presents elite Graeco Roman Christians with a picture of their faith that smooths off its rough edges and misrepresents its size extent nature and relationship to Rome Ultimately Eusebius suggests that Christianity was and always had been the Empire's natural heir **Emotions in Ancient and Medieval Philosophy** Simo Knuuttila, 2004 The first part of the book covers the theories of the emotions of Plato and Aristotle and later ancient views from Stoicism to Neoplatonism Ch 1 and their reception and transformation by early Christian thinkers from Clement and Origen to Gregory of Nyssa Cassian and Augustine Ch 2 The basic ancient alternatives were the compositional theories of Plato and Aristotle and their followers and the Stoic judgement theory These were associated with different conceptions of philosophical therapy Ancient theories were employed in early Christian discussions of sin Christian love mystical union and other forms of spiritual experience The most influential theological themes were the monastic idea of supernaturally caused feelings and Augustine's analysis of the relations between the emotions and the will The first part of Ch 3 deals with the twelfth century reception of ancient themes through monastic theological medical and philosophical literature The subject of the second part is the theory of emotions in Avicenna's faculty psychology which to a great extent dominated the philosophical discussion of emotions in early thirteenth century This approach was combined with Aristotelian ideas in later thirteenth century particularly in Thomas Aquinas extensive taxonomical theory The increasing interest in psychological voluntarism led many Franciscan authors to abandon the traditional view that emotions belong only to the lower psychosomatic level John Duns Scotus William Ockham and their followers argued that there are also emotions of the will Chapter 4 is about these new issues introduced in early fourteenth century discussions with some remarks on their influence on early modern thought **A History of the**

Quests for the Historical Jesus, Volume 1 Colin Brown, Craig A. Evans, 2022-11-08 A comprehensive two volume reassessment of the quests for the historical Jesus that details their origins and underlying presuppositions as well as their ongoing influence on today's biblical and theological scholarship Jesus life and teaching is important to every question we ask about what we believe and why we believe it And yet there has never been common agreement about his identity intentions or teachings even among first century historians and scholars Throughout history different religious and philosophical traditions have attempted to claim Jesus and paint him in the cultural narratives of their heritage creating a labyrinth of conflicting ideas From the evolution of orthodoxy and quests before Albert Schweitzer's famous Old Quest to today's ongoing questions about criteria methods and sources A History of the Quests for the Historical Jesus not only chronicles the developments but lays the groundwork for the way forward The late Colin Brown brings his scholarly prowess in both theology and biblical studies to bear on the subject assessing not only the historical and exegetical nuts and bolts of the debate about Jesus of Nazareth but also its philosophical sociological and theological underpinnings Instead of seeking a bedrock of facts Brown stresses the role of hermeneutics in formulating questions and seeking answers Colin Brown was almost finished with the manuscript at the time of his passing in 2019 Brought to its final form by Craig A Evans this book promises to become the definitive history and assessment of the quests for the historical Jesus Volume One covers the period from the beginnings of Christianity to the end of World War II Volume Two sold separately covers the period from the post War era through contemporary debates
