Japanese Religions on the Internet Erica Baffelli,Ian Reader,Birgit Staemmler,2013-05-13 Japanese Religions on the Internet draws attention to how religion is being presented represented and discussed on the Japanese Internet Its intention is to contribute to wider discussions about religion and the Internet by providing an important example based on one of the Internet s most prominent languages of how new media technologies are being used and are impacting on religion in the East Asian context while also developing further our understandings of religion in a technologically advanced country Scholars studying the relationship of religion and the Internet can no longer work on prevailing notions that have thus far characterised the field such as the assumption that the Internet is a Western centric phenomenon and that studies of English language sites relating to religion can provide a viable model for wider analyses of the topic Despite this growing amount of research on religion and the Internet comparatively little has focused on non Western cultures The general field of study relating to religion and the Internet has paid scant attention to Asian contexts The field needs a full length and comprehensive study that focuses on the Japanese religious world and the Internet not merely to redress the imbalances of the field thus far but also because such studies will be central to the emerging field of the study of religion and the Internet in future They will provide important means of developing new theories constructing new paradigms and understanding the underlying dynamics of this new media form

Byron Earhart, 2015-07-15 Illustrated with color and black and white images of the mountain and its associated religious practices H Byron Earhart s study utilizes his decades of fieldwork including climbing Fuji with three pilgrimage groups and his research into Japanese and Western sources to offer a comprehensive overview of the evolving imagery of Mount Fuji from ancient times to the present day Included in the book is a link to his twenty eight minute streaming video documentary of Fuji pilgrimage and practice Fuji Sacred Mountain of Japan Beginning with early reflections on the beauty and power associated with the mountain in medieval Japanese literature Earhart examines how these qualities fostered spiritual practices such as Shugendo which established rituals and a temple complex at the mountain as a portal to an ascetic otherworld As a focus of worship the mountain became a source of spiritual insight rebirth and prophecy through the practitioners Kakugyo and Jikigyo whose teachings led to social movements such as Fujido the way of Fuji and to a variety of pilgrimage confraternities making images and replicas of the mountain for use in

local rituals Earhart shows how the seventeenth century commodification of Mount Fuji inspired powerful interpretive renderings of the peerless mountain of Japan such as those of the nineteenth century print masters Hiroshige and Hokusai which were largely responsible for creating the international reputation of Mount Fuji In the eighteenth and nineteenth centuries images of Fuji served as an expression of a unique and superior Japanese culture With its distinctive shape firmly embedded in Japanese culture but its ethical ritual and spiritual associations made malleable over time Mount Fuji came to symbolize ultranationalistic ambitions in the 1930s and early 1940s peacetime democracy as early as 1946 and a host of artistic naturalistic and commercial causes even the exotic and erotic in the decades since
