Yesilada, 2019-04-05 This book focuses on the political economic dimensions of the food crisis with case studies from the four regions Africa Asia Latin America and the Middle East of the Third World It examines various international factors that influence agricultural development in the Third World A Requiem for Peacebuilding? Jorg Kustermans, Tom Sauer, Barbara Segaert, 2020-12-01 This book assesses the claim that peacebuilding is a moribund international practice Its contributors trace the origins of peacebuilding bring back to memory its moments of triumph and reflect on the reports of its decline The story of peacebuilding parallels the broader story of liberalism s rise and fall in world politics including the attempt to remedy an ailing patient by administering a magic medicine the local turn Its contributors further write about what may come after peacebuilding as we still know it They describe more locally rooted attempts at building peace and how they operate in the shadows of and in an ambiguous relationship with governmental and international peacebuilders The book finally suggests that reports of the pending death of peacebuilding are probably premature Peacebuilding is a resilient international practice apt to adjust itself to a changing environment and too important a source of legitimacy for those that wield power *Peasant Mobilization and Solidarity* Benno Franciscus Galjart, 1976 Chile Monograph on sociological aspects of social participation of rural workers and their solidarity in rural worker organizations based on a field study carried out in 1970 analyses theory and obstacles in relation to peasant mobilization in Latin America describes setting up of rural cooperatives by small farmers membership and leadership of peasant movements and other rural area associations co operation and conflicts of interest etc Bibliography pp 127 to 130 and diagrams **The Vietnamese War** David Elliott, 2016-04-15 A monumental work of research and analysis this is a history of the Vietnam War in a single province of the Mekong Delta over the period 1930 1975 More precisely it is a study of the Vietnamese dimension of the Vietnam War focusing on the revolutionary movement that became popularly known as the Viet Cong There are several distinctive features to this study 1 it provides an explanation for the paradox of why the revolutionary movement was so successful during the war but unable to meet the challenges of postwar developments 2 it challenges the dominant theme of contemporary political analysis which assumes that people are rational actors responding to events with careful calculations of self interest 3 it closely examines province level documentation that casts light on a

number of important historical controversies about the war No other history of the Vietnam War has drawn on such a depth of documentation especially firsthand accounts that allow the Vietnamese participants to speak directly to us
